Gamma Zeta
Classes of '67, '68, '69

ΑΤΩ

ALPHA TAU OMEGA

Unlike many fraternities that boast of being the “best,” Alpha Tau Omega relies solely on its record. In an article printed by the school newspaper, *The Daily Illini*, sports writer Chip Cirillo (not an ATO) analyzes ATO and crushes the myths surrounding our house. The following is an excerpt from the original article titled “The Team Fans Love to Hate Just Rolls On.”

“Mike Royko, the *Chicago Sun-Times* columnist, recently wrote a column concerning one of the oldest traditions in baseball – hating the New York Yankees. This state of mind arises from jealousy of the Yankees’ winning ways.

At Illinois, there is a similar tradition in intramural circles: Hating Alpha Tau Omega. Most people that hate Taus do so because they too have winning teams.

Recently Taus were champions in Fraternity Blue football, basketball, volleyball, swimming, track, water polo and racquetball. In the All-University League, they were champions in football and B-League basketball. They even had champions in co-rec sports which found them No. 1 in basketball and water basketball.

Year after year, Taus chalk up championship after championship while hundreds of other teams watch trophies being carried to 1101 W. Pennsylvania Ave...

...There is usually a large throng of female followers at most of their important games, many of whom have the ATO letters sewn on the seat of their pants. The appearance of these girls gives rival teams another reason to despise the men in gold and blue...

Jealousy has inspired many fantastic rumors about life at Alpha Tau Omega. Among the wildest fallacies are that football players get fined if they miss a practice, a rushee can only pledge if he has been an all-conference athlete in high school, and Taus would rather watch Monday Night Football than socialize at an exchange.

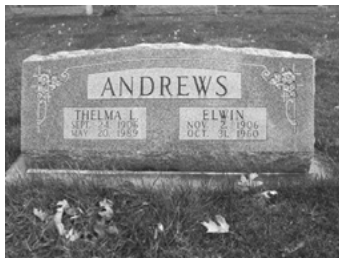

The only thing that could save its “popularity” would be a decade of losing teams and that possibility is very remote.”

Although we take extreme pride in our athletic accomplishments, they comprise only a small percentage of ATO in total.

CLASSES OF 1967-70

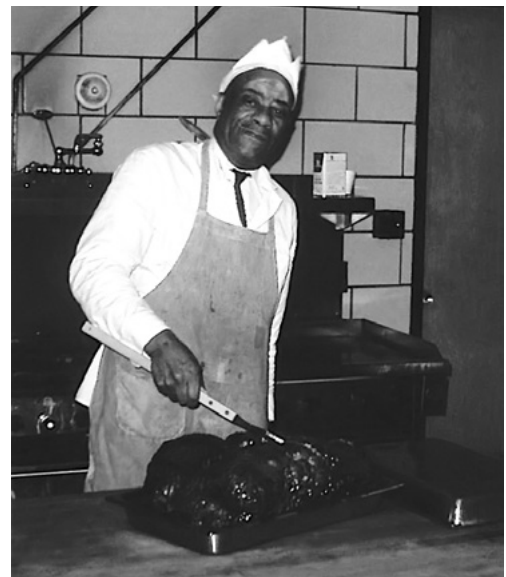

Thelma Lane Andrews

Oakwood, Ill – Thelma Lane Andrews, 82, of Arlington, Texas, formerly of Oakwood, passed away at 11:30 a.m. Saturday (May 20, 1989) at Four Season nursing home in Fort Worth, Texas. Born

Sept. 24, 1906, in Danville, daughter of James E. and Louisa Moultre Lane. She married Elwin Andrews. He died in 1960. She is survived by: a daughter-in-law, Mrs. Marilyn Ray of Arlington, Texas; three grandchildren, Michael Andrews of McLean, VA., Nancy Andrews of Arlington, Texas, and Jeffry Andrews of Carrolltown, Texas; three great-grandchildren. She also was preceded in death by a son, Gerald Andrews.

Otis “Odie” Wilson

CLASS OF 1967

Robert Bachman

I graduated from the University of Illinois in 1967 with a degree in Accountancy (with Honors) from the College of Business. I passed the CPA exam and was licensed in Illinois, although I never worked as an accountant. While at Illinois, much of my time was taken up by my involvement with the varsity swimming team, which meant I missed many of the ATO functions. I was fortunate to have a good swimming career (All-American in 1965 and 1967; three times Most Valuable Swimmer and team captain for two years). In the spring of 1967, I was awarded the Big Ten Medal of Honor (awarded each year to one senior at each Big Ten School based 50% on academic achievement and 50% on athletic achievement). In the fall of 1967, I enrolled in Harvard Law School, graduating with a Juris Doctorate in 1970. Sue Finlay, a Pi Phi at Illinois, and I were married in July of 1970 and moved to Houston, where I started my legal career with Vinson & Elkins. Sue and I divorced in 1975 but have remained friends ever since. I practiced corporate finance and securities law (including many merger and acquisitions transactions). I spent my entire legal career with Vinson & Elkins. My main avocation during the first 15 years in Houston was running, competing in many 5K, 10 K and 10 mile races. I also ran six marathons, including Boston and Honolulu. My best marathon time was 2 hours and 49 minutes. In my early forties, I became interested in golf. My lowest handicap was a 7, mainly because my short game was fairly good. A group of us (19 individuals) built a 27-hole daily fee golf course, catering to large corporate and charity events. The planning, building and then operating the golf course was educational and great fun. The course opened in 1990. We sold the course in 2005 when the land had appreciated in value, and we received an offer we could not refuse. Total knee replacement surgery in 2013 has curtailed my activities (no more running, for example). Balance issues have kept me away from the golf course, although physical therapy has helped quite a lot, and I may soon find my way back to the course.

I moved from Houston to Austin, Texas, in 2008.

Bo Batchelder

5210 Landguard Drive, Raleigh, NC 27613
Cell: 919.414.6033 | BatchelderBo@gmail.com

I have enjoyed all seasons of life - even with their challenges and trials...starting in hometown Peoria as a young boy near Bradley University, moving to a new high school where I met, and eventually married, Judy, off to the University of Illinois and ATO for four great years, then into the business world—a 45-year career as a franchise owner of Hardee's and Taco Bell restaurants, and now semi-retired (entrepreneurs don't retire)...blessed and thankful.

Sports are my hobby: past - football, basketball, track-discuss, racquetball, tennis; and current - biking swimming, golf. I'll be golfing with Mort and friends at the reunion.

Judy and I will celebrate our 50th wedding anniversary a couple of weeks after the ATO Reunion—destination to be determined. We have three married children and seven grandchildren. Here's a Ripley's...for the last four years we have been enjoying multigenerational-communal living: 2-grandparents, 2-parents, 2-teenage boys and 2-middle-school girls...all under 1-roof. It's grandparents' day every day! And, our other three grandchildren are only 15 minutes away.

The most significant event of my life happened in 1987. As I was seeking greater purpose and meaning in my life, friends introduced me to Jesus Christ, my Savior and Lord. My new life is complete with purpose and joy, now that I have a personal relationship with Jesus. Let me know if you'd like to hear the rest of the story.

We are active in our church, and I lead a non-denominational weekly Friday morning Bible study & fellowship hour for 75-100 men. I serve on the boards of Mission Increase Foundation, Jobs for Life and Finding Purpose.

Regarding highlights: One ATO highlight, when I was Pledge Chairman, was the Pledge Class of '68 Walkout to Peoria...remember? Another was serving as ATO Worthy Master. Being elected Co-captain of the 1966 Fighting Illini football team is my most treasured sports highlight, while my "dream game" was October 26, 1965 against Griese and Purdue.

ATO Reunion 2018 will undoubtedly be another highlight!

Peter Bates

Deceased. No additional information available.

Artie Becker

First of all, many thanks to the organizers—Dr. Frakes, Bo, and the others. Great idea, great job. Unfortunately, will not be able to attend, but my good wishes go to all the brothers. Fond memories.

Married to Nancy (Northwestern girl; same high school, Chicago St. Gregory) for 48 happy years. (At the time of the reunion, we'll be a few months short of the Big 50.) Three kids; one son a corporate attorney in Silicon Valley (alum Notre Dame); another son a chemistry instructor at Nobles-Grenough in Boston (Duke); and the third (daughter) a linguistics prof at Reed College in Portland, OR (Stanford). (Sorry, we didn't deliver any Big Ten schools for the offspring.) Five delightful grandkids; ages 8 years to 8 months; four boys, one girl.

We are confirmed snowbirds. Summers in New Jersey, winters in Florida. We've been blessed with visits from Redball and Ann, PK and Diane, Keyes and Marianne, Bates and Fleury. We have also thoroughly enjoyed the mini-reunions hosted by the Johnsons at their Fern Glen retreat over the years.

Retired Senior VP from Lehman Bros. in NYC (yes, that Lehman!); headed Becker Consulting for some years thereafter (international work; racked up a million flown miles each on two separate airlines); fully retired now. Keyes and I have commiserated at Fern Glen over the exquisite joy of the hits to company stock positions and pensions that flow from our respective bankrupt employers.

Lieutenant, U.S. Navy Intelligence; staff of C-in-C Pacific Fleet as cryptographic comms officer, Pearl Harbor.

Cancer survivor now for seven years (ocular melanoma); Nancy suffers from a number of health issues, prominent among them congestive heart disease. Ah, the rewards of growing old. But we maintain.

Chief hobby is writing books that nobody reads; four novels so far, another in the oven.

Terry Cole

My favorite memories from the ATO years are of late nights at PoBoys and the Outhouse Scramble, along with getting to live with a really good group of guys (and a few real characters).

After graduating from the U of I, I went to Michigan State to attend graduate school and get my MBA. For basis sustenance, I got the best job in my life as a bus boy in a sorority house. To pay my tuition and living expenses, I took a job selling vacuum cleaners door-to-door. Surprisingly to me, I found I enjoyed sales and had some level of talent at it although the door-to-door part got old pretty early. Through a classmate in the MBA program, I was offered a job selling life insurance which started me on a lifelong career in the financial services industry.

After graduation (and getting a lucky number in the draft lottery) I was offered an opportunity to manage an insurance office in Ohio. While there I had a young agent who was off to a great start, but one day came to me and said he was quitting to take a position as a graduate assistant on the Kent State football team. In trying to talk him into staying with me, I told him "There is no money in coaching football". At this writing, he is doing reasonably well in his current position in Tuscaloosa!

By the late 70s, I was getting both bored with insurance sales and tired of living in northeast Ohio so I moved to Colorado Springs and joined a financial planning firm. It was there that I met my first wife; together we had two kids ... my son Tony (now 30) and my daughter Gina (now 28).

Thanks to a severe downturn in the Colorado Springs economy in the late 80s, combined with an opportunity to live in the Pacific Northwest, we moved to the Seattle area in 1989 where I had accepted a position in a financial planning firm. Unfortunately, that deal came apart after about 90 days. So I found myself in a new town with an unemployed wife, two small children, and no visible means of support. This was a real "gut check" time, especially since I had long ago figured out that, like most entrepreneurs, I am basically unemployable. So I started a financial planning practice, which soon morphed into a Registered Investment Advisory firm that continues to this day. Although I still own the firm, I sold off most of the client relationships this past January. I still Chair the Investment Committee, but only see a couple of

dozen clients personally. To me, it's a "Goldilocks" blend of keeping my hands in a profession I love without many time constraints.

I have been very active in the community here, serving as President of my Rotary Club and of the local Estate Planning Council, as well as chairing a handful of community service committees over the years.

My first marriage ended in 2009. After what my daughter refers to as a "12-year Bachelor Party", I met and married the woman I should have been with all along. Michelle is a retired nurse (or perhaps it's more accurate to say she's now a full-time private duty psychiatric nurse). She came with five kids and seven grandkids, now ages 1 - 12. I'm in love with all of them!

We split our time between our homes in Kirkland, WA, and Scottsdale, AZ. We love to travel, and have been alternating between trips to the South Pacific and Europe. An African safari is still on the bucket list. We love golf, scuba diving, boating and snow skiing, and either work out or do hot yoga several days a week.

Life is pretty damn perfect!

Charles Dasenbrook

Deceased. No additional information available.

David Florio

Richard Fredricks

Deceased. No additional information available.

William C. George

WIND POINT - William C. George, 71, loving husband to Debra H George, passed on Tuesday, September 1, 2015 in Racine, WI. Bill was born July 8, 1944 in South Bend, Indiana. He grew up in Western Springs, IL and attended the University of Illinois in Champaign. Bill and Debra met at the U of I where they both graduated with a Bachelor of Science Degree in Marketing in 1966. They were married in 1968 in Chicago and recently celebrated their 47th anniversary. Bill joined Procter & Gamble in Chicago in January of 1967 in the Sales Department. While at P&G he was required to serve his active duty in the US Army Reserve. He then completed a variety of Sales and Marketing Management positions in Chicago, Ft Wayne, and Cincinnati. In 1977 Bill and Debra moved to Racine, Wisconsin where he joined SC Johnson, Inc. His 30 year career included assignments as National Sales Manager and other Marketing Management positions, retiring in 2007. Since retirement they have enjoyed spending time with their family, traveling, skiing, golfing, and boating on Lake Michigan.

Bill, Debra, and Brian experienced 28 years of adventures while cruising throughout Lake Michigan, even traveling to Ontario Canada via the North Channel in 1992. Bill is survived by his wife, Debra H. George and their son, Brian W. George, daughter-in-law, Kelly M. George, and grandsons, Owen and Colin George, his brother, Richard E. George II and sister-in-law, Judy B. George. He is also survived by his nephew Richard E. George III and wife, Lisa and their children, his niece, Susan (Peter) Swanson and their children, his niece, Jennifer (Todd) Young and their children. He was preceded in death by his parents, Richard Ervin George and Martha H. George. Funeral Services will be held Friday, September 11, 2015 at Sturino Funeral Home at 4 p.m. with Reverend Ronald Segedy officiating. There will be a visitation on Friday at the funeral home from 2 p.m. until 4 p.m. Memorials can be made to the National Leukemia And Lymphoma Society . The society helps fund leukemia research and provides financial assistance to families dealing with blood cancers. Memorials can be made by visiting <https://donate.ils.org/ils/donate>, selecting (Tribute) and entering "In Memory of William C. George". Memorials may also be provided to The Prairie School in Memory of William C. George. The family would like to extend their sincere appreciation to the Intensive Care unit of Wheaton Franciscan Health Care – All Saints for their loving care. Online condolences may be expressed at [sturino funeralhome.com](http://sturinofuneralhome.com) Sturino Funeral Home 3014 Northwestern Ave. Racine, WI 53404 sturinofuneralhome.com

Larry Hinton

- Shelbyville, IL '62
All State Football/Basketball
Class president four years
IL Hall of Fame and Shelbyville Hall of Fame
- University of IL '66
Letterman Basketball and Track
Pledged ATO sophomore year
- Married 51 years to high school sweetheart

Two Children - Todd deceased - Tina, IL State swim champion and had full swim scholarship to University of FL. She is presently coaching high school swim team which was Florida HS State Champion the past two years.

Three grandchildren—All three athletes.

- Taught Glenbrook South High School, Glenview, IL for two years before being drafted. Received Purple Heart in Viet Nam. Took early out to get Masters Degree from EIU.
- Director of Counseling at Lewis and Clark Comm. College in Godfrey, IL and basketball/golf coach.
- Counselor and Public Relations at Richland Comm. College in Decatur, IL before going into real estate and owning three car washes in Decatur, IL
- Elected to Richland Community College Board of Trustees four years
- Both Carol and I retired and have lived in Gainesville, FL for 20 years where we enjoy supporting our grandchildren in their various athletic/school activities. We also are Gator fans and attend various UF sporting events. Both have volunteered in various community events including the local VA hospital where I volunteered in pharmacy and emergency area for 10 years.

Preston K. (P.K.) Johnson, IV

54 Oak Pointe Circle, Belleville, IL 62223.

DOB: June 11, 1945

Educational Background:

- Belleville Township High School: 1959-1963, National Honor Society
- University of Illinois, Urbana, Illinois 1963-1967, BA Degree-With Honors, Major Political Science
- Law School, Chicago Kent College of Law, Chicago, Illinois, Juris Degree Doctor Degree, 1968-1971, High Honors

I had the joy of practicing law with my father from 1971 until his death in 1997. Coincidentally my son, P.K. Johnson V received his law license in that year and he has practiced with me since 1997. His educational background was exactly the same as mine. He became the fifth P.K. Johnson to become an Illinois lawyer. We still are very proud of this accomplishment.

I started practicing with my son in September of 1997 and continue through today. We do a wide variety of general practice but I am now specializing in estate planning, probate and some contested estate litigation.

My wife, Diane and I have four children, P.K. V, Robb, Kathryn and Kara. All four are married and have produced ten grandchildren from ages 16 down to 3. This brings us a great deal of enjoyment.

For those of you who remember, we still have a cottage at Fern Glen in Shiloh, Illinois and spend about ten months a year at that location. Diane's mother, Ellen Wilson turned 97 on August 20th and we celebrated her birthday. She is currently in a nursing home. Our second home is a condominium in West Belleville, Illinois and we spend a couple of the winter months there.

We love to travel and take several large trips each year. I enjoy the practice of law and have no plans for retirement.

Jim Kehoe

I grew up in West Chicago, Illinois and graduated St. Francis High School in Wheaton where I was fortunate enough to meet my wife Marianne and started dating her when we were both sixteen. Now, more than fifty five years later we are living in Mérida, Mexico having moved there ten years ago and we are enjoying life there very much. Fear not for our safety as Mérida is the capital city of the State of Yucatan and is a World Heritage City of over one million persons and is the safest and fastest growing place to live in all of Mexico.

I was initiated into ATO in 1964 and like Dennis Likosar I too was a "pot and pan man" for Odie Wilson for several years, which I preferred over waiting tables at Sigma Nu. Serving as "Worthy Usher" for two years I learned a lot about cleanliness and housekeeping which has served me well over the years and has made Marianne very happy. My degree from the University of Illinois is in Industrial Administration with a minor in Economics.

I started flying for United Airlines in 1967 and flew for them for thirty eight years, starting out on the propeller driven DC-6 and over the course of my career also flew the Douglas DC-10 and every model of jet aircraft that Boeing produced. I spent the last ten years flying Internationally on the B-777 and finished on the "great lady of the Skies" the 747-400. I was fortunate enough to start flying at a very early age (impossible to do today) and retired as the number one pilot on the seniority list of United Airlines. All in all it was a very good ride. Travel for work and pleasure has always been an important part of our lives and we have been all over the world and will continue to do so.

Marianne and I built (myself) our first home in St. Charles, Illinois and raised our two children, Maureen and Brendan, there for sixteen years before moving to Glen Ellyn, Illinois. Maureen has provided us with three beautiful and talented grandchildren. Brendan is unmarried but does have three dogs; not quite the same as having grandchildren.

When the children were very young Marianne, who was a Theta at U of I with a degree in English, wanted a career change and went back to school for two years to get all the prerequisites for Dental School. Accomplishing that she spent the next four year earning her degree at the University of Illinois College of Dentistry on the west side of Chicago. This required a two hour commute each way using a car, the train and finally the number 58 Ogden bus out to the west side campus, which in those days was not in the best of neighborhoods. She practiced Cosmetic Dentistry for more than 22 years and lectured at dental seminars throughout the United States and Canada, teaching not technical dentistry but practice management. Most dentists are proficient at their trades but unfortunately are not businessmen and this was the essence of her seminars.

As far as my activities go I ran a successful painting contracting business on the side and that evolved into a construction business in which I built everything from homes to Dental/ Medical offices. I finished six Marathons and played competitive tournament racquetball around the U.S. for more than twenty years and at age forty four I found adult baseball and this has been a passion with me for the last twenty eight years. At age 72 I am now slowing down a bit after eight knee surgeries but as a coach recently told me "we are all extremely lucky to still be able to play a kids game."

Jack Matzer

Personal Biography: After graduating from the University of Illinois, my first job was with the Inland Steel Company with corporate headquarters in the Loop in Chicago. I was selected to participate in the Inland Steel Sales Training Program. After completing the program and knowing I would be in Chicago for a number of years, I decided I wanted to continue my education. Inland Steel offered a tuition payment program for participating in the evening division of local universities. I chose the Kellogg School of Management, Northwestern University. After a few years of working full time and going to school in the evening, I decided I wanted to move on from the steel industry and continue to

complete my education at NU on a full-time basis with a student loan.

In the meantime, a high school friend of mine was traveling in Europe and suggested I meet him in Spain for a tour of Europe. I had a few bucks and it sounded like a good idea, so I left for Europe and we were there for almost five months. One of the highlights was another high school friend was working for the Loch Ness Monster Investigation in Scotland. We were invited to participate for a few weeks with free room and board! I swear I saw Nessie a few times, but it was usually at night when we were on our way home from the local pub!

I did earn a Master of Business Management from Northwestern University in 1973.

In the late 80's while living in Chicago, I became interested in sailing. I had a number of friends who were experienced sailors, one had won two Mackinaw Island Races. I learned a lot over those years and along with a few partners, became a part owner of a sailboat (35 feet) in Chicago. Besides day sailing off Chicago, we also made numerous trips to various towns in Michigan and Wisconsin. South Haven, MI and Fish Creek in Door County, WI were favorites. We also sailed one time from Chicago to Buffalo, NY. That's another story!

In 1990, I became involved in a business opportunity in Denver. I ended up spending 20 wonderful years in Colorado. I was even able to keep up my sailing as I became a part owner of smaller sailboat on Lake Dillon near Breckenridge, CO. Sensational view and great sailing!

Overall, my personal life has been great, although I am divorced and have no children.

Professional Biography: I am currently the President and owner of Energy Efficiency Products (EEP) located in Sharon, Wisconsin. EEP is an independent manufacturer's representative organization specializing in energy efficiency products for commercial, industrial and government facilities. Over the past 40 years I have had experience in marketing and strategic planning in a number of industries including energy reduction products, building component manufacturing, building services, commercial building information services, real estate development and management consulting.

For the past ten years, I have been active in the energy efficiency products market as President of Air Strata Marketing, Director of Marketing and Sales for AIR PEAR LLC and since 2009, the President and owner of EEP.

Professional accomplishments include published articles, lectures and presentations for the American Management Association, the National Association of College and University Business Officers, Plant Engineering and Facilities Maintenance Seminars, International Council of Shopping Centers and the Kellogg Graduate School of Management, Northwestern University.

Thomas Murphy

Scott Myers

Home town/High school info: Urbana, IL and Urbana High School, class of '63.

U of I info: Graduated with a BA in History, with Honors, Class of 1967, then a J.D. from the U of I College of Law, Class of 1971. I was a founding member of the John Cribbet Society, honoring the late, great Dean Cribbet. I have also served on the school's Board of Visitors and remain active in various activities with the College of Law.

I practiced law in Chicago, first with a firm for approximately 18 years, then as the founding partner of my own firm, and remained such until I retired in 2015. The firm was a 12 person boutique civil litigation firm, primarily as defense attorneys in medical malpractice litigation. I then sold the firm two years ago, and I retired.

I have 3 children, one a founder and director of a charter school in South Shore neighborhood of Chicago, another is a dermatologist in Charlotte, Virginia, and my son is with a tech start-up in Los Angeles.

I married my college sweetheart, Kate, a Tri Delt at the U of I, in 2007. We live on the North Shore, at 655 Bluff St in Glencoe, IL. Kate is a retired English teacher. We travel extensively, with a particular fondness for Italy, where we have spent a fair amount of time the past few years. We avoid Chicago winters, preferring Palm Springs and Scottsdale, where I play lots of lousy golf.

Robert Nelson

After graduation in 1963 from Riverside-Brookfield High School, I attended the University of Illinois, Urbana campus, with a Navy ROTC full scholarship. While attending the "Big U", I joined the Alpha Tau Omega fraternity and was captain of the soccer team for 3 years. As a Midshipman, I spent each "summer vacation" with the active Navy/Marine Corps learning to become an officer. February of 1968 was a banner month. I graduated with a BS degree in Mathematics Teaching, was commissioned as a Second Lieutenant in the Marine Corps, and married the 1964 homecoming queen from RBHS. So far, so good!

My first major stop on this journey was Quantico, VA, for serious officer training and preparation for duty in Vietnam. Fortunately, I was selected to attend Navy flight school in Pensacola, FL. While going through flight training at Pensacola I was selected to participate in the Navy's program for training the next generation of Apollo astronauts. I received a Master of Science degree in Aero Engineering but the program ended before astronaut training began. I received my wings as a Naval Aviator in January, 1970.

For the next 20 years ('70 – '90) I flew fighter aircraft for the Marine Corps. Some "notable" events:

- Selected to fly the F-4 Phantom;
- First duty station was Kaneohe, HI; pretty good beginning for a young Lieutenant;
- Second assignment was MCAS Iwakuni, Japan in 1971 (not Vietnam due to a "bombing halt");
- After Japan, back to Texas as an advanced jet flight instructor;
- In 1975 ordered to Marine Corps Air Station El Toro in Orange County California;
- Flew in Top Gun in 1976; great flying but not quite like the motion picture;
- Participated in the Iran hostage rescue attempt in 1980 while at sea on an aircraft carrier;
- Selected as the initial cadre of instructor pilots to fly the new F/A-18 in 1981 at Lemoore, CA;
- Returned to El Toro in 1986 to be the Commanding Officer of VMFA-323, F/A-18 squadron;
- 1990 – Mission complete. Retired from active duty, got divorced, and had a daughter in college.

For the next 15 years ('90 – '05) I lived in Iwakuni, Japan, with my new wife, Judy. More "notables":

- Taught computer science for Central Texas College, Asian Division;
- Taught math and physics at MC Perry HS and coached the soccer team;
- Served 10 years as the Network Systems Admin for Yokosuka Naval Hospital – Branch Iwakuni;
- Retired again in 2005 and relocated to Colorado Springs, CO.

As of 2016, fully retired and living in Goodyear, AZ - enjoying golfing, swimming, hiking and warm winters! So far, real good!

Major Organizations: Military Officers Association of America – Leadership roles in Colorado Springs, Colorado, and AZ; American Legion; Marine Corps League; Navy League

Children: Nancy '71 and Andy '73; two G-kids in their teens.

Update:

Hi Jim,

Unfortunately a conflict has developed in my "plans" (if you can call them that) which means I won't be able to join the brothers at the reunion in Oct. The short version of why is that I've been heavily involved with the Military Officers Association of America (MOAA) for many years. When we lived in Colorado ('05-'15) I was the state president and helped coordinate the national annual meeting in Colorado Springs ('10). Well, MOAA HQ in DC just announced that Phoenix is selected to host the 2018 national meeting (I thought they would select Dallas) in Oct. Since I'm the only member of the Arizona chapters that has previous experience, I have been "volunteered" to help organize the meeting here. As it turns out, the MOAA "team from DC" will be here the weekend of our reunion and I'll have to be here also. We're expecting 450-500 attendees so there is lots of work to be done (as I'm sure you well know!).

Very sorry that I won't be able to attend and relive the glory days of college/ATQ life with the brothers. Hope you have a great time and the Illini win!

Fraternally yours, Bob

Robert J. Phipps

Home Town/school: Park Ridge, Illinois, Maine East High School

Graduated University of Illinois a year late, 1968; B.S. in Accounting

Memories: Way too many to list, five wonderful years. I remember times but more importantly the friends I made at Illinois. I learned from my successes just as I did from my failures. My years at Illinois and my experiences and relationships have forever lived inside me. They were some of the best years of my life. I have maintained a very close relationship with John W. Petersen (earlier class) and Robert Bachman, one of my pledge brothers. They are and have been brothers to me for decades.

Military: Failed the draft on two separate occasions.

Career: Started in commercial real estate business in East Lansing in 1968 as President of Phipps Company, and continue today after 49 years. I currently own several small shopping centers and office complexes in East Lansing which are managed by my company. I still am very active and work around 30 hours/week in my business.

Awards/recognition/community service: Pentecost Foundation (Pres and Director), East Lansing Building Authority, East Lansing Centennial Commission, Special Tribute State of Michigan, Keep Michigan Beautiful Certificate, Growing Pride Certificate, Downtown Pride Award, East Lansing Charter Commission (Chair), City of East Lansing (Council Member, Mayor), Housing & Community Dev. Commission, Neighborhood Density Task Force, Council of Neighborhood Presidents, Grand River Ave. Study Group, Republic Bank Central (Director), Downtown Development Authority (Chair), Michigan Festival (Director, Treasurer), International Council of Shopping Centers, University of Illinois Alumni Assoc, East Lansing Art Festival (Director), CELBA (Director), East Lansing-SCAP Basketball (President).

Family: Married my college sweetheart in 1968, Jody. Spent many wonderful years together and had one son Jason. Divorced in 90's. Met my current wife Darlene in 2003 and married in 2010. I have four grandchildren in Georgia, the reason for selling my winter home in Sarasota and purchasing a house in Atlanta three years ago. Split my time between here and East Lansing.

Life Situation: work too much on my business. I have no hobbies, no travel, but so much I wish to do and unable to find the time.

Rick Shauger

My wife, Anne, and I live in Spring, Texas (suburb of Houston) where we have lived for 30 years. We have three children and four grandchildren.

I worked for International Harvester in Libertyville, Illinois as a Management trainee. After 18 months, I was placed on the factory floor as a Foreman. This proved to be one of the most valuable assignments in my career as it was my first experience managing people. Eventually I was promoted to a position managing a small staff of engineers.

Our children were born in the 1970's in the Chicago area. All have moved out of the Houston area so we have done some travelling to keep up with our children and grandchildren. Our three children are a Mathematician, an Optometrist and an Engineer.

In 1982 I was transferred to Houston which was the center for the process industries (chemical, refining, oil and gas and power). By this time I was interested in staying in this industry. I have worked for companies that manufactured pumps, valves, digital controllers and electric pipe evaluation machines. Eventually, I managed a small company (part of a large corporation) which manufactured valve controllers and sold in North and South America.

Anne pursued her career as an elementary school teacher in the Chicago area. More recently she has served as the Director of the Pre School at our church.

I retired two years ago and I am enjoying retirement in Texas, more in the winter than in the summer because of the heat. My hobbies include volunteering (Houston Food Bank and raising money for local charities through our church), golf, traveling and very amateur woodworking. Anne is active at our church, exercises at a local gym and ushers at theater productions in downtown Houston.

Five years ago we were able to see Illinois play Baylor in the Texas Bowl. I am happy to report that Illinois dominated the game.

Charles H. Traub (from <http://www.charlestraub.com/biography/>)

Charles was born in Louisville, Kentucky, in 1945. He studied English literature at the University of Illinois, and joined the Peace Corps after graduation in 1967. An accident in Ethiopia forced him home to Kentucky where he met Ralph Eugene Meatyard, who became an important inspiration and friend. After service in the United States Army in 1969, he decided to pursue photography at the Institute of Design in Chicago. There he studied with Aaron Siskind, Arthur Siegel and Garry Winogrand. His thesis of abstracted black-and-white landscapes "Edge to Edge" was widely exhibited, and featured in a solo show at the Art Institute of Chicago. Following his landscape work he made three well-known series of black- and-white photographs: *Street* and *Parties* (from The Chicago Period), and his first monograph, *Beach*, all used an innovative vignette on a Rolleiflex SL66.

In 1971 Traub began teaching full time at Columbia College, Chicago, and was responsible of developing new curriculum for the growing public interest in the medium. Traub was instrumental in developing the school's Contemporary Trends Lecture Series that celebrated renowned international photographers and image-makers. Subsequently, he became chairperson of the department and founded the Chicago Center for Contemporary Photography, which became the Museum of Contemporary Photography (MOCP). In 1973, along with his colleague Douglas Baz, Traub went on a sabbatical to make the *Cajun Document*, an extensive look at the culture of the Louisiana bayous.

Traub's first major body of work in color, *Street Portraits*, began in 1976, continued after his move to New York City shortly thereafter, and culminated in the book *Lunchtime*. His move to New York was followed by his first solo exhibition of photographs at the Light Gallery. Its owner, Tennyson Schad, then hired Traub to become director of this prestigious gallery. Traub curated numerous exhibitions there, including *The New Vision: Forty Years of Photography at the Institute of Design*; Aaron Siskind's *Harlem Document*; *Designed for Photography*; and *The Color Work of the FSA*. Traub also showcased major photographers new to the gallery: William Klein, Luigi Ghirri, Ray Metzker, Mario Giacomelli and Louis Faurer among others.

After leaving the gallery in 1980 Traub continued his personal work and formed the Wayfarer partnership with Jerry Gordon—a specialized editorial and corporate photography agency. Their work was featured in many magazines, including *Life*, *Time*, *Forbes*, *Fortune*, *Business Week*, *New York* and *Avenue* as well as annual reports for Fortune 500 companies. Throughout the 1980s Traub traveled to Italy, Brazil, Haiti, Morocco and the Far East for his personal work. *Dolce Via* and *In the Still Life* are compendiums of photographs from that period.

In 1987 Traub was asked to design a graduate studies program for the School of Visual Arts, which became the MFA

Photography, Video and Related Media Department. Since its inception, the program has been distinguished for its innovative use of digital technology, the inclusion of all aspects of the lens and screen arts and its internationally celebrated faculty. As an early advocate of the power of digital photography, Traub adapted it to his own practice. His philosophy about the importance of digital thinking is reflected in the manifesto *Creative Interlocutor* and the textbook *In the Realm of the Circuit*. Creative projects that highlight Traub's integration of new technologies include the interactive website *Still Life in America* and the iBook *No Perfect Heroes: Photographing Grant*.

Here is new york: a democracy of photographs was co-founded by Traub. This living memorial to the tragedy of 9/11 received the Brendan Gill Award as well as the ICP Cornell Capa Infinity Award. It is considered one of the seminal examples of crowdsourcing, digital production and online distribution of universally produced imagery. The exhibition traveled to 42 venues worldwide, and with its Web presence is considered to be one of the most widely viewed exhibitions of all time.

Traub has dedicated himself to photographic education, and has been a chairperson at the School of Visual Arts for 30 years. He has served on a number of non-profit educational boards, and is the president of the Aaron Siskind Foundation. He has had more than 60 major exhibitions in galleries and museums throughout the world, including one-person shows at the Art Institute of Chicago, The Speed Museum, Hudson River Museum and Historic New Orleans Collection. Traub's work is in the permanent collections of more than two dozen major museums worldwide.

Tom Trigger

I attended the University of Illinois Dental School in Chicago, graduating in 1971. I then enlisted in the US Navy as a dental officer from 1971-1973 at Great Lakes Naval Training Center in northern Chicago. Upon release from active duty, my wife, Joyce, and I moved to Houston, where I went into private practice as a dentist from 1973 until 2015. I then transferred my practice to another location in southwest Houston, where I still practice.

Joyce and I have two daughters and three, about to be four, grandchildren. We live in Richmond, a southwest suburb of Houston, where both of us are active in church, neighborhood and Richmond activities. I still have a great fondness for golf. I live on a golf course and it occupies my attention on a regular basis. My wife, Joyce, formed a private Christian pre-school, and subsequently an elementary school in Richmond, where she continues to be the owner/proprietor today. I am also a volleyball official and have officiated at all levels for the last twenty years, including the state finals and at the USAV Junior Nationals.

My memories of ATO persist today--the massive, clandestine search for the boa constrictor that escaped from the Aylesworth/DeBord room, the toga parties, stowing my motorcycle in the basement of the chapter house and then driving it up the board so I could drive it to classes after a long cold winter, freezing under electric blankets in the dorm, Crickmer throwing knives at the door that led to the dorm, many trips to Po Boys, being able to hear Kootie belch a mile away, Stacy's unsolvable card tricks, my first bona fide lit fart during exam week, Odie's fritters, that graphic unbelievable depiction of the Phoenix bird--to name a few.

I hope you gentlemen have a great reunion and more great memories.

CLASS OF 1968

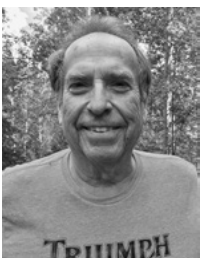

Van Ackerman

From Van's wife, Shirley:

Sadly Van passed away in October 2016. He fought hard but ultimately the heart failure won. We have twin children who are just 22 years old and Van and I were married for a beautiful 45 years - ironically we celebrated that anniversary one week before he died.

Hope this note finds all of his other fraternity brothers well.

Sincerely, Shirley Ackerman

Bill Aylesworth

For me, graduation in '68 meant suddenly losing the company of my ATO friends and colleagues. People I had happily connected with daily were abruptly in the rear-view mirror. Additionally I was no longer a college student...no longer a member of the world's last remaining leisure class with a noon-time gig at Stan's Gridiron.

I had some pretty immediate distractions however. Before the end of '68 I had moved to Chicago, gotten married, became a parent and was looking for a pay-check. The first couple of years were a blur...but here is a summary.

1968-1970: Sales rep for securities/investment firm, I.D.S.

1970-1972: Sales rep for McCulloch Oil Exploration

1972-1986: Multiple roles for Reuben H. Donnelley, an early direct and database marketer

1986-2007: With a partner, formed CFM Direct and sold it in 2007

2007- Present: Retired

Linda (Whitcomb, Alpha Chi Omega) and I are still married with 5 grandkids one of whom is going to college herself. We are both looking forward to a reconnect. It will be a hoot!

Ron Bess

I grew up in Bloomington with a love of sports I inherited from an Illinois High School Hall of Fame Coach, my father, Bloice Bess. We were 23-4 in football the three years we were together at BHS and I was selected for Parade Magazine's First High School All American Team.

When it came time to pick a college, my heart was always with Illinois. It was an easy decision because I grew up an Illini fan, coach Pete Elliot was a role model (also from Bloomington), and the football team was ranked in the top five in the country my senior year.

Since I was on a football scholarship, Coach Elliott guided me to the dorms and set me up with John Wright as a roommate. On a Friday night in September of our freshman year, we went to an Urbana high school football game and John met his wife-to-be, Deanna (as I recall, she recognized me first). We've been close friends ever since.

Nearby in the dorms were Dick Tate and Terry Miller. We had a lot in common and decided to go through rush as a package deal. ATO turned out to be the ideal place for all of us. We each made a personal connection with a wide range of Tau's, including: John Mulliken and Bob Bachman, B Brown and Larry Hinton, Ken Schreiner and Steve Kimball. We also shared a high degree of comfort and compatibility with the other brothers in the house. Shortly after we pledged, John Stacey joined us and added some magic tricks. A couple years later I met a cute coed named Patty at an SIU party in Carbondale, drove her back to Champaign, and she later became John's wife.

I didn't know what I wanted to study at Illinois. I just knew I didn't want to take any more foreign language courses. So, through process of elimination, I signed up for the College of Commerce. I had no idea what to major in until I met Bo Batchelder. I learned Bo was majoring in "Marketing." I thought OK, let's try that. I wasn't sure what Marketing meant, but it sounded better than Accounting...

After college I determined Vietnam was probably an unwinnable civil war, and joined the National Guard. I was sent to Ft. Lewis Washington for Infantry Basic Training. After the first month, our Drill Sergeant became ill and had to leave Ft. Lewis. Unexpectedly, the Company Commander of the Base elevated me from Platoon Guide to Drill Sergeant. I was given the responsibility for preparing recruits to become soldiers.

Our platoon became a top performer across all the competitive drills and activities. And I became the Pugil Stick Champion. At graduation from Basic Training, I was surprised to be awarded the "American Spirit of Honor" medal...the first non-regular army soldier to receive the award. I was humbled by the experience and considered signing up for a tour of active duty, but I didn't do it.

At the time, I thought I wanted to be a college football coach and AD. So, I came back to grad school at Illinois and was a freshman coach for Bob Blackman. But during grad school, I discovered I was drawn to the world of Advertising. I liked the people, the culture and the challenges. I decided to move to Chicago and give it a try for two years, then let the chips fall where they may.

My early years at Foote, Cone & Belding in Chicago were stimulating and successful. So, I made the career commitment to Advertising. After FCB, my most formative experience was the twelve years I spent at Needham, Harper and Steers (now DDB). I led clients like McDonalds, General Mills, Kraft and Anheuser Busch through their most significant growth years and had a good time doing it.

Then in 1987 I went out on my own and started Bayer Bess Vanderwarker. We were the fastest growing Chicago agency in decades, and were Adweek's Agency of the Year. We had front row seats to the Bull's six championships because we were the agency that built Gatorade into a multi-billion-dollar brand and made Michael Jordan very happy by inviting America to "Be Like Mike".

In 1996, I sold Bayer Bess to FCB (back again) and became President of FCB Worldwide. In 2000, I moved to Young & Rubicam New York as CEO of five agencies in the network. Five years later we moved back to Chicago and I became President of North America for the Paris-based Havas agency network, a position I enjoyed for ten years.

I am now President and CEO of a newly-formed agency network with offices in Chicago, Boston and Atlanta. We are backed by Private Equity funds from Baird Capital and are rebranding under the name “Merge”.

My ties to Illinois have stayed strong over the years. I was I-Man of the Year in 2008, and Chicago Illini of the Year in 2010. I was also Person of the Year in 2012 for the Chicago Advertising Federation. I’ve served a term on the U of I Athletic Board and I’ve been a member of the Chicago Athletic Advisory Board for 35 years. I’ve worked with five A.D.’s and seven football coaches since the 1980’s. And that’s not a formula for success. More about that over drinks.

Reflecting back on ATO and Illinois during our college days, I have many fond memories. I met Terri Shute at an ATO-Kappa exchange. She was Social Chair of Kappa and a cheerleader. We married in 1970, had two children, Dan and Laura, and lived in Winnetka for 25 years. Terri and I divorced in 2000 but have a warm relationship that involves holidays and special occasions with our children and grandchildren. Dan is working in media sales in Chicago. Laura graduated from Illinois and lives in Chicago with her two infant boys and husband James, who works for the Cubs.

I am now married to Colleen Gowl Bess. I met Colleen when I moved to New York in 1999. She lived in Manhattan for 25 years, where she raised her daughter Catherine before sending her off to Harvard. Colleen built a successful career as EVP, Global Account Leader for Nabisco and Colgate. She was President of her sorority in college and President of our Co-op Board in Chicago. Three of the four times she was called to jury duty in Manhattan, she was elected foreman. (I was intrigued that her family nickname is “Chief.”)

Colleen and I moved back to Chicago in 2004, and lived just off Lake Shore Drive for ten years. Then we moved to Winnetka last year. We have been the legal guardians of our biracial grandson Trey, since he was two years old. He’s now a sophomore at New Trier, and a passionate travel hockey player. Terri partners with us raising Trey as well as giving regular support to daughter Laura and her two boys. We all get together for birthdays and holidays.

A few years ago, I decided I wanted to give people a more complete, less generic answer to the common greeting we all give each other every day. So, my frequent response to “Hi, how are you?” is, “I’m Happy, Healthy, and Hopeful!” I have a lot to be thankful for.

Don Briggs

Home Town/High School: Born in Bloomington, IL 1946 / Eisenhower HS, Decatur, IL 1964

Education: U Illinois: BS, Journalism & Communications, 1968; George Washington U: Master of Public Administration, 1979; National Defense U: MS, National Resource Strategy, 1997; Virginia Tech, PhD (ABD), Public Administration & Policy, 2010

U of I / ATO Memories: “One-Eyed Jacks” band at the Chances R with a few of the Brothers & dates. IM Football Champions - ATO. 10/30/65: Bo Batchelder’s stealing the ball from Bob Griese and racing to the Purdue 25 early in the fourth quarter. “Batchelder’s steal was the final blow...Boilermakers were on our 8-yard line...we scored our third touchdown on the play after his run.” – Pete Elliott. Working at WILL, WICD, and Illini (Photo) Studio. Intense study. Best: Camaraderie of the Brothers.

Military Service: 1968-1974 US Air Force, Pilot/Aircraft Commander KC135; 45 combat missions during the Vietnam War including 11 missions during “Linebacker II.” Led flights of 1-6 KC135’s & 3-36 receivers (bombers or fighters). Awarded Air Medal & other commendations.

Career: More than 47 years of military & Federal civil service.

2001-2115 (retirement): (US Dept of Defense/ National Defense University – ‘NDU’) Chair, National Security & Industrial Base Department (20 Faculty); Director, Industry Studies (IS) Program (65 Faculty/310 Students); Professor of Acquisition (Acquisition Course Director; Faculty Lead, Aircraft IS & Land Combat IS; Created courses about “strategic innovation & change in business & government” & “industry analytics.” Named “Professor of the Year (2007)” out of 94 faculty.

1990-2000: (US Dept of Transportation) Manager of the Federal Aviation Administration’s Capital Budget Division, responsible for capital budget formulation and execution. Represented the Comptroller on the FAA’s “Joint Resources Council,” reviewing all FAA acquisition programs, & was a significant contributor to FAA’s acquisition, personnel, & budget reform of 1996. Earned MS from the NDU’s Industrial College of the Armed Forces’ in 1997; returned to NDU as the DOT/ FAA Chair, 1998-2000.

1983-1989: (US Dept of Defense) Served as the Secretary of the Navy Comptroller’s Lead Aircraft Procurement Budget Analyst (reviewing \$11.5 billion annual Navy Aircraft Appropriation), then served as Senior Budget Analyst in

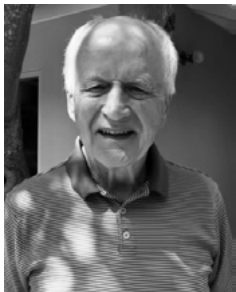

the Comptroller's Budget Evaluation Group, reviewing all US Navy appropriations & producing annual Dept of the Navy Comptroller budget guidance.

1975-1983: (US Dept of Transportation) As DOT two-year management intern, rotated through several Modal Administrations, producing five aviation & railroad studies. Served as a DOT representative to two of the four Committees of the Amtrak Board of Directors, & assisted in the DOT's Amtrak Route Restructuring of 1978.

Professional Certificates: FAA Commercial, Multi-engine land, Instrument, Pilot Cert; B707-720 type rating.

Family: Don & wife, Susan, will have celebrated their 50th anniversary August 3, 2018. Two sons, Brian (wife Wendy & grandson Spencer), Fredericksburg, VA, & son Michael, works in Manhattan & lives in Brooklyn. Susan, graduate of George Mason University, was a Budget Analyst & Program Manager at the Atlantic Research, E-Systems, and Raytheon corporations. Their work took them to many domestic & foreign locations including Europe, Asia, & Latin America; have lived in Northern Virginia since 1975. Both enjoy traveling widely & engaging in many creative interests, including art, glass fusion, mosaics, SCUBA, hang gliding, snow-skiing, fitness, & photography; active in Smithsonian Resident Associates program of classes, lectures, & travel.

Community Service: Manager/Coach & League Commissioner Youth Baseball & basketball: 1977-1988.

William G. Carey

Married to Kathleen Daly of Providence, RI, in 1976. Kathy is a retired special education teacher; Reside in Lafayette, CA, since 1986; One child, Caitlin Carey; BS Accounting, U of I; MBA, U of Chicago; CPA, State of IL

After not making the grade to graduate from the U of I on time in 1968, I ended up serving two years in the Marine Corps as an accountant in San Diego.

After the Marine Corps in 1970, I went back to the U of I to complete my degree and prepare for the CPA exam. I did not need a lot to graduate other than to shape up my GPA, and to my luck, the instructor in my first class back was an old roommate from when I lived off campus.

For the next 4 years, I lived in Boston and Chicago, doing auditing and regulatory work in the savings and loan industry. I then spent most of the next 2 years working on my MBA, and, when completed in 1978, moved to Oakland, CA, where I worked for a computer and transportation leasing corporation until it got run under by IBM. I then worked as a chief financial officer for a very successful real estate development/syndication company until 1985 when I made the mistake of accepting a short-lived position as president of a competitor.

Since the beginning of 1986, I have been self employed as a tax return preparer and financial consultant. It started out as an interim situation until something better came along, but I ended up liking both the lifestyle and the working relationship I had with clients so much, that after 30 years, I don't want to give it up.

In my spare time, I provide a modest amount of income tax and financial planning services to non-profit and low income individuals. I perk up real quick when I hear the words, "I have a problem and am hoping you can help me". For recreation, my flexible work schedule gives me a lot of time for pickup basketball, squash and golf, and, when home, I enjoy cooking. I also have become an avid mushroom hunter, chanterelles in the winter in CA, morels in the spring in IL and hen of the woods/maitake in Illinois and New England in the fall.

I am very thankful to the individuals for their efforts to make this gathering happen. Living in the ATO house was a great experience and I am anxious to see all of you, and, hopefully, share many stories about school and the years after.

Michael Cleary

Before entering the University of Illinois in 1964, I attended high school at Rockford West in Rockford, IL. After leaving U of I and the Institute of Aviation in 1967, I attended Southern Illinois University, graduating in 1970 with a degree in Aviation Technologies.

I then started a career in warehouse automation and developed an automated vertical storage system for automotive dealership parts departments. I moved to Phoenix, AZ, in the late 1980's and retired in 2016, moving to New Braunfels, TX, in the Texas Hill country. I was offered a great opportunity to come out of retirement and I am currently enjoying working again, but with a less loaded schedule.

I have been married to my wife Holly for 13 years. I have a son who still lives in Illinois and a daughter who lives in Phoe-

nix, AZ. My daughter made me a grandfather one year ago, and my grandson came into the world at 11 ½ pounds, so I know he will be playing for the Fighting Illini!

I kept my pilot license current flying single engine airplanes for business and enjoyment until just a few years ago. I am still known as “Sky King” by some friends.

Bob (Elmo) Darley

- Home Town – Jacksonville, Illinois High School – Franklin HS
- University of Illinois 1964 – 1966
- Graduated University of Iowa 1968 Student Taught Fall 1969 & Asst Football Coach.
- Graduate School – Southern Illinois University

Memories of ATO - Unity of the Pledge Class, Watching with pride all the ATO's excelling in the various sports.

Careers since Graduation

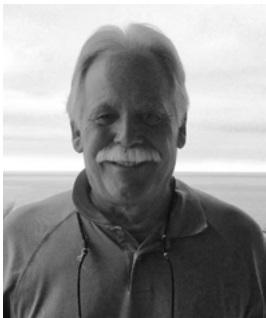

- Teacher, Head football coach & Athletic Director in Illinois
- Marketing Manager Illinois – Reader's Digest
- District Marketing Manager New York – Reader's Digest (retired after 17 years)
- Owner of Construction Company with divisions/Offices in Syracuse and Rochester, New York. New Construction & Restoration. Built Bob Evans Restaurants in Michigan, Ohio, West Virginia, Virginia & PA. (Sold Company)
- Production & Production Control Manager – MacKenzie-Childs for Pleasant Roland (founder of American Girl Dolls).
- Production Manager & Head Estimator – Large Site Development and Utility Construction Company. (Retired for good January 2016)

Married – Wife Dolores from N. Shore MA. (Women's Basketball player Iowa). Teacher and Volleyball Coach for 40 years in Illinois and New York. (retired)

2 Married Daughters - Holly & Kara, 2 Granddaughters (Jr & Frosh in College) 1 grandson (middle school)

Current Life Situation – RETIRED Spending most of my time with my wife, family and horses on our horse farm and Riding Arena. Travel – 2 weeks every Winter in St. Maarten and 2 weeks every Summer Cape Cod. All other travel is horse related.

All welcome if you are in the Syracuse area.

Michael DeYoung

I grew up in Peoria, IL with my younger sister Nancy and younger brother Tommy. I graduated from Richwoods Community High where I was an All-American Swimmer. I joined Alpha Tau Omega during the spring rush of '64 with the Peoria contingent including Michael Hasselberg, Roy Ricketts, and Van Ackerman. I lived in house all four years and have very many fond memories helping Bill Aylesworth and Jim DeBord in planning many special events like Out House Scramble, the Siamese Fighting Fish contest, the Boa vs a King Snake or Mouse, or the Sin Bin. I will also never forget the pledge walk out weekend to Bo Batchelder's house in Peoria.

I graduated with a B.S in Zoology in 1968 but was not immediately accepted to medical school. I joined the Peace Corps for the portable water project with the Thai Public Health Service. I trained in Hawaii for three months before heading off to Southern Thailand for two years. I returned to attend Georgetown University's School of Medicine, which required a lot of studying, but I didn't forget my ATO legacy of outrageous parties and rugby games. I graduated in May 1974 and traveled to California for a three-year residency in Internal Medicine at Cedars Sinai. After moonlighting emergency rooms I took a second residency in Emergency Medicine at LA County's USC Medical Center. I worked as a board certified Emergency Physician until March 2017. I am currently reducing my work hours and recently began a new position at Surfside Urgent Care in Laguna Beach. On July 3, 1981, I married Ellen Dowling and moved to Laguna Niguel, CA, where we had a son, Elliot, in '81, a daughter, Savannah, in '92, and Olivia in '95.

I didn't learn to snow ski until 1974 but I have found it joyous on trips with family and friends ever since. I also enjoy golf and good wine. I take annual trips to Napa Valley to expand my wine collection. These days I enjoy drinking on my balcony in Laguna Beach- the site of many great parties overlooking the ocean. My son Elliot (34) just graduated from UCSD's Interventional Radiology Program and has moved with his girlfriend to Hawaii to start his first job. Savannah 17

(25) is living at home with me and has almost graduated from Orange Coast College. My youngest, Olivia (22), just graduated from the University of Alabama and hopes to become a Physicians Assistant.

David Dickey

I am currently living in Coppell, TX, just outside Dallas, near the DFW airport.

I grew up in Evanston, Wilmette, and Champaign, IL and graduated from Champaign Senior High School.

After graduating from the University of Illinois, I have lived in Lafayette, IN, Sterling Heights, MI, Dayton, OH, East Stroudsburg, PA, Dayton, OH again, and then moved to Coppell, TX.

I graduated from the University of Illinois in 1968 with a B.S. in Chemical Engineering. I then went to Purdue University where I earned an M.S. and Ph.D. in Chemical Engineering. I served briefly as an Reserve Army Officer.

I am currently living with my partner, Lydia Fenley, who is a longtime resident of several places in Texas, but born in Frankfurt Germany, grew up in Okinawa, Japan and lived a few years in Cleveland, OH.

I have a son Matt, who is a Lieutenant in the Dayton, OH police department and has one of my granddaughters, Caitlin. I also have a daughter Sarah, who works for a computer payroll company in Nashville, TN and has another granddaughter, Lydia, and a grandson, Nicholas.

I currently am and have been working on my own since 1998 as an independent consultant in my company called Mix-Tech, Inc. I do some travel on business and sometimes for pleasure. I have visited all of the states in the U.S. except North Dakota and have visited a few countries in Europe. We recently traveled to Germany in 2016 and spend a week at a conference in Quebec City, Canada.

Jim Frakes

After growing up in Mt. Vernon, IL, where I played football and was captain of the track team, I moved on to the University of Illinois and ATΩ in the fall of 1964. My favorite fraternity memories are of times with Denny Likosar, Duane Teske, Tom Svoboda and the incomparable Hound (John Helfrich). Other favorites: "One-Eyed Jacks," Po'Boys, IMs, The Chief, and Bo's theft from Griese. I graduated with a BS in Ceramic Engineering in June, 1968, and, that same day, married my college sweetheart, Nancy French (BS Education '67, XΩ). I then worked as a staff scientist, initially at the Westinghouse Astronuclear Laboratory in Pittsburg, PA, and later

at the Los Alamos Scientific Laboratory in Los Alamos, NM. Deciding on a career change, I returned to UIUC, graduating with an MS in Bioengineering in 1972, and then entering the U of Illinois College of Medicine, graduating with an MD with Honors in 1976. Most of this time, Nancy taught elementary school and supported us.

Following medical school, I completed a residency in Internal Medicine at the University of Missouri in Columbia, MO, and a fellowship in Gastroenterology at the University of North Carolina at Chapel Hill, NC. After completing medical training, Nancy and I returned to Rockford, where I co-founded Rockford Gastroenterology Associates, Ltd., (RGA) and joined the faculty of the U of Illinois College of Medicine at Rockford (UICOMR). In medical practice, I served as Managing Partner of RGA and Director of the Digestive Disease Unit at OSF Saint Anthony Medical Center. My specialty in gastroenterology was highly technical advanced endoscopic procedures.

During my years in medicine, I authored over 100 papers and book chapters, and was the editor of five books on gastrointestinal endoscopy; delivered hundreds of invited lectures and directed scores of courses nationally and internationally. As particularly interesting tasks, I was an invited panel member of the 1997 Consensus Development Conference on Hepatitis C for the National Institutes of Health and served as an advisor to Congress and the Health Care Finance Administration. From the UICOMR, I received the Faculty Distinguished Teaching Award, Faculty Distinguished Service Award, Distinguished Community Service Award and Distinguished Alumnus Award. I was honored to be selected for The Best Doctors in America yearly from 1996 until retirement in 2010.

The culmination of my medical career was in serving as the President of the American Society for Gastrointestinal Endoscopy (ASGE) in 1999-2000 and receiving its Distinguished Service Award in 2007. I was awarded the designation of Master of the American College of Gastroenterology that same year. Prior to my retirement in 2010, I was promoted to Clinical Professor Emeritus of Medicine by the University of Illinois College of Medicine.

Outside of medicine, I have remained an avid (and long-suffering) Illini sports fan and have served on the U of I Foundation, Presidents Council and Boards of the Alumni Association and Athletic Association. I also coached grade-school basketball. Nancy has been involved in adult literacy projects, both as a tutor and organizer. We are major donors to the U of I Foundation.

Nancy and I have been fortunate to have had a rich life together (50th anniversary last June!), and to have been blessed with wonderful children, grandchildren, friends and travel. Our daughter, Sarah, graduated from UIUC and now teaches elementary school in Visalia, CA. She lives the country life with our granddaughters Kelly and Kacey, horses, dogs, goats and chickens. Our son David was an All-ACC and Academic All-American football player at Georgia Tech and graduated with four degrees from there. He is now a Professor of Electrical and Biomedical Engineering at Arizona State University, currently on extended leave to the advanced technology group at Google. He and his wife, Brittany, live in Redwood City, CA, and, just this year, presented us with our first grandson, Ryland.

Through my lecturing and years of involvement with the ASGE, we have been able to travel the world and see incredible places. Now we are retired and are greatly enjoying this wonderful phase of life. Our retirement activities have included visiting the National Parks and their great lodges, and spending lots of time in our beloved Santa Fe, NM. These travels have meshed well with my retirement hobby of landscape photography. We are also avid gardeners and generally just love spending time at home (and frequently sampling my wine cellar and Nancy's incredible cooking).

Tom Frank

From Tom's wife, Connie:

I appreciate your effort to include Tom, even though we do not have a lot to report other than that he has been at the Veteran's Home in LaSalle for about 10 years. He has one of the most serious types of Parkinson's Disease that his doctors have ever seen and he was about 45 when he was diagnosed. It came to the point about 9 years ago, that I just could no longer care for him at home. He has faced all of this with utter courage and dignity and has never complained. I admire him greatly and certainly am sorry that this is the way his life has played out. I know that he would love to be with all of you in the fall if he could. We just appreciate your thinking of him. Please have fun and remember him to all. He would send his love if he could. Hope you have a great turnout!

Fondly, Connie

Michael R. Hasselberg

After graduating from the University of Illinois in 1968, I entered the United States Army. After completing Officer Candidate School, I spent a year at Fort Carson, Colorado, and then returned to Fort Benning, Georgia for Airborne School and Ranger School. I was an Honor Graduate in Ranger School. I served one year in Vietnam with the 101st Airborne Division. I had the privilege and good fortune to lead a Rifle Platoon and a Reconnaissance Platoon in combat and survive.

When I returned to the United States, I obtained a Master's Degree from the University of Illinois in 1972 in Political Science and then went to John Marshall Law School in Chicago, graduating in 1975.

I practiced law for four years in Chicago and then returned to my hometown of Peoria, Illinois in 1979 to practice law. I started my own law firm in 1997 and have practiced law successfully ever since. My law firm won Peoria's Outstanding Small Business Award in 2017. I hope to retire on December 31, 2018 and spend more time with my family and at my home on Amelia Island in Florida.

I look forward to seeing all of you at the reunion. I want to thank Jim Frakes for all of his efforts in making our reunion possible. Best wishes to everyone!

Scott W. Lewis, O.D.

ATO MEMORIES: I loved my fraternity days. When asked about my college major, I would usually reply that it was “fraternity”. I was a transfer from Northwestern University’s Epsilon Xi Chapter at the beginning of my junior year in 1967. I was fortunate to be included in the Gamma Zeta Chapter of ATO. Gamma Zeta was certainly recognized at that time as the premier fraternity at the University of Illinois. Through the kind efforts of Michael Hasselberg, I was invited to live in the Chapter House during my senior year (1968). I became very close friends with Michael DeYoung. We had many adventures together, both at the U of I and at his home in Peoria. Mike DeYoung was perhaps the best looking ATO at the time, so I benefited from being his wingman on many escapades chasing the sorority girls. I know that we both agonized over medical school admissions, but I don’t remember doing much studying that year. I would love to hear from Hasselberg and DeYoung. I know they both went on to have very successful careers.

My Northwestern ATO pledge class included my good friend, Jack Fuller, who died in 2016. Jack won the Pulitzer Prize in Journalism in 1986. Jack was a classmate of Bill Clinton at Yale Law School. He was editor, publisher and president of the Tribune Publishing Co and eventually president of the Times Mirror Co.

Other current noteworthy Northwestern ATO’s include Joe Girardi, skipper of the New York Yankees. Joe had the distinction of being elected fraternity president as a freshman.

FAMILY HISTORY: I married my college sweetheart, Linda. We have been married 48 years. We have one daughter, Sara. She was her high school class valedictorian, straight A’s in college (Phi Beta Kappa) and graduated #1 in her Stanford Law Class. She lives in New York City where she practices corporate law.

Faculty Appointments:

- Washington University in St Louis School of Medicine,
Department of Ophthalmology and Visual Science.
Adjunct Clinical Instructor
Washington University Physicians Network
Barnes Hospital Eyecare Network: 1990- present.
- University of Missouri, St. Louis School of Optometry
Adjunct Assistant Professor. 1990-2006

Education

- O.D., Doctor of Optometry, 1977
Southern California College of Optometry
Magna Cum Laude Honors and Class Salutatorian
Beta Sigma Kappa Honor Society President
- B.S., Bachelor of Science, Visual Science, 1973
Southern California College of Optometry
- B.S., Bachelor of Science with Honors, Chemistry, 1968
University of Illinois, Northwestern University

Military

- Captain, United States Air Force. 1968-73
Distinguished Graduate Honors U.S. Air Force Officer Training School
Flight Instructor/Evaluator KC-135 aircraft.
305th Air Refueling Wing
Air Medal for Combat Flight Missions (Vietnam) 1971

Professional

- Scott W. Lewis, O.D. P.C.
Eyecare Associates, President, owner, Waterloo, Illinois
June 1983- August 2006 (sold to Illinois Eye Surgeons)
- Illinois Eye Surgeons, Dba: Quantum Vision, Eyecare Partners, Clarkson Vision, Waterloo, Illinois
August 2006- Present (part-time)
- Carey, Danis & Lowe LLC Consultant. Providing Medical Research and Case Review.
January 2007 – October 2017

Organizations

- American Optometric Association
- Illinois Optometric Association
- Missouri Optometric Association
- St. Louis Optometric Society
- Southwestern Illinois Optometric Society, Past President

Dennis Likosar

Home Town: Hillside, IL High School: Proviso West

Year of ATO Initiation: 1965

University of Illinois Graduation: BSME 1968

ATO/U of I Memories:

- “Rackouts” and other fun pledge activities
- Our walkout and the aftermath when the actives melted cheese in our beds with our electric blankets!
- The night Duane Teske’s antics got him the name “Gulliver”
- Working for Odie as a waiter and pot washer. I preferred pot washing because I no longer had to serve coffee to Mrs. Andrews when I was hung over and my hand was shaking!

Military Service: Air Force ROTC and active duty 02/1969 – 2/1972

Employment History:

- 2/1/69: Procter and Gamble – Worked for four days in Cincinnati, OH before going on active duty in the Air Force.
- 2/16/69 – 2/29/72: Active Duty in US Air Force with assignments at Laughlin AFB, Del Rio, TX and Davis Monthan AFB, Tucson, AZ. Spent most of active duty time doing project management and mechanical engineering work in a Base Civil Engineering Squadron.
- 3/1/72: Resumed my career with Procter & Gamble again in the Engineering Division in Cincinnati, OH in Bar Soap Engineering.
- In 9/74 I took an assignment at a new, \$75MM plant in Greenville, NC, to make Pringles Potato Chips. After about 3 years, the plant was converted to become a disposable paper products plant. I expected to stay for a couple of years and move on but as our family settled in, I continued to take on many different jobs with increasing responsibilities in plant operations, process engineering, plant engineering, and new product and process development. Although I was offered several opportunities to move on to new, higher level assignments at different P&G facilities both in the US and overseas, my family and I chose to decline those opportunities to stay in Greenville.
- On 12/31/99, P&G decided to close our Greenville Plant. Although I was offered several opportunities to continue my P&G career at other locations, I chose to retire and stay in Greenville.
- 9/10/00: Became a bit bored in retirement, so went to work with a friend that owned and operated a successful printing business. Since this job allowed me much flexibility and freedom in how to get things done, I continued working almost full time until 2/14. Since then I have worked part time and now only go in a couple of days a month.

Community Activities:

- Served my church in several positions including Finance Committee Chair, Chair of Staff Parrish Relations Committee, Chair of the Administrative Committee.
- Coached Upward basketball teams.
- Helped start and was first President of Habitat for Humanity of Greenville Pitt County, NC
- Board member of the Nautical Club Homeowners Association, at Indian Beach, NC

Family:

- Married to Susan Tebussek 1/25/69. Sue was a U of I Gamma Phi Beta member. We had 3 children (Jeff born on 11/30/70, David on 1/9/73, and Lauren on 8/15/76).
- We were married for 42 ½ years until her passing on 8/30/11 after 7 ½ years of dealing with early onset Alzheimer’s disease.
- Have 7 grandchildren: Jeff and Shelly have Kendall and Cooper, David and Cee Cee have Andrew James (AJ) and Sara, and Lauren and Chad have Carter, Tanner, and Tyler.
- Carolyn Crossland and I dated for about 3 ½ years and were married on 5/20/15 in Montego Bay Jamaica. Carolyn retired in August 2015 after a long career as a music professor/educator, conductor, and church music director. She has also traveled extensively often for additional music training.

- Hobbies and Interests in Retirement:
- Carolyn and I love to travel. Since we were married we have been to Jamaica twice, France, Italy (Rome, Florence, Venice), Thailand, Cambodia, Laos, Myanmar, and Costa Rica. In 2017 we have trips scheduled for Croatia, Slovenia, Spain, and Paris again.
- We have a condo at Indian Beach, NC and enjoy spending time there. We enjoy kayaking in the sound, walking the beach, and eating local seafood.
- Enjoy home wood working projects and other do-it-yourself projects.
- Enjoy watching NCAA and pro sports on TV and follow the U of I teams and those of my children and their spouses (UNC, NCSU, Wake Forest, Clemson, East Carolina)

Scott Roe Lorenz

I was a “townie” having grown up in Urbana, Illinois. My Dad was a professor at the U of I, so orange and blue runs through my veins to this day! I graduated from Urbana High School, where I was active in the music programs - concert band, dance band, and marching band, where I was the Drum Major my senior year.

I graduated in December, 1969, with a B.S. in Economics. I have fond memories of getting to know and hanging out with all the brothers, some of whom I still see to this day. Some fun memories include winning 3 IM football championships, led by Mort “3 hooks” Mulliken, playing Hearts for Gold at lunch time, running through the sororities doing Black Foot, White Foot, learning from Cool B how to ask a coed for a date, and of course having a bratwurst with cheese at Stan’s while playing Pong or being abused by the Shangrila (Shangy) pinball machine.

After graduation I had plans to pursue an MBA degree, however my local draft board had other plans for me. After passing my draft physical I had the good for-tune to be accepted in the Illinois National Guard by the Command Sargent Major of the unit, who remembered me from my days of delivering his newspaper.

My business career began with a few years marketing transportation services in Chicago, Los Angeles and San Francisco. Following my time in the transportation industry I began a career in real estate, first in San Francisco, managing and leasing office and retail space, and then in Berkeley, developing, managing, and leasing student housing in and around the Cal campus. I practiced retirement for a year or so until I was asked to manage a boutique hotel across from the Cal campus.

While in Los Angeles I met my wife Phyllis, who grew up in Wheaton, graduated from Wheaton Central HS and Wheaton College. We both love Northern California and all that it has to offer, where we have lived since 1974 and raised our family. Phyllis is a Marriage and Family Therapist. We have a daughter, Molly, who is a Senior Manager with Salesforce in San Francisco, and a son, Jay, who edits movie trailers in LA. We have been active members at the First Presbyterian Church of Berkeley since moving to the Bay Area. I enjoy attending Cal football and basket-ball games, playing bridge, daily walks, playing golf and traveling. Hail to the Chief!

Robert Maynard

For the past 30 years, I have lived in Lawrence, Kansas. Getting here was fortuitous, but highly unexpected.

Born and reared in Southern Illinois, a native of Marion, Illinois, barely turning 17 in time to graduate from Marion High School, I left home in the fall of 1964 to begin my higher education at the University of Illinois. I had the good fortune to go through rush, and choose and be accepted into the ATO house. I am quite certain that I excelled socially, and that came at the cost of academic achievement. As I recall, at the end of the 1964-65 year, the University asked that I go elsewhere, and the Campus Police implied that it would be in my best interest to leave and not come back (something to do with doing wheelies across the Quad on my Harley late at night during spring finals week).

I mention the above to then say that the one year I spent at the ATO house, with a most phenomenal group of guys in my pledge class, was one of the most important formative years of my life and, in retrospect, was extremely impactful in my life going forward. My memories are fantastic, and when a couple of months ago I received an email from Duane Teske, noting that Jim Frakes and he were searching for some past members of the Class of '68, not only the actives,

but also a few of the ones that departed early, I was ecstatic. It is my intent and hope that I can attend some of the Reunion activities.

After Illinois, I surfaced at Southern Illinois University (SIU), matriculating slowly. I eventually received my Bachelor's in 1972, which included a 2 ½ year (1969-71) stint in the Army, Military Intelligence, Counter-Intelligence, Korean Language School, and then in their brilliance the military sent me to Viet Nam. I spent the vast majority of my time involved with the Phoenix (Phung Hoang) Program, with my area of Operations being Thuong District, in I Corp adjacent to the Laotian border, south of the Ashau Valley. If, and only if, one has interest in the history of the Vietnam War, "google" the Phoenix Program.

Back to SIU, I completed my Bachelor's very rapidly (funny how that works) and also met the beautiful lady that would become my wife. Teri and I have been married for 44 years this past August. We have three kids (Chris and his wife, Brooke and their two kids, Izzy and Cash, live in Colorado Springs, John lives here in Lawrence, and our daughter, Brit and her husband, Brian, and their son, Bobby, live in Leawood, KS).

Work-wise I have essentially been a serial entrepreneur, both in the private sector and in the non-profit world. Regarding the for-profit side of things, I have had both successes and failures in several different vertical markets, but in general the successes have outweighed the non-successes, and at this age, life is good. I still work on some projects, and probably will do so until such time as I cannot either physically or mentally continue. I tried not working (or as some people refer to it – retirement) for about three months about 6-7 years ago, and that did not materialize as something I enjoyed. So, I work when I want, and only if I want, driven more by the activity than anything else.

In the non-profit area, I participated with the Organ Donation & Transplant Association of America, serving as Board Director and President. Secondly, along with Father Harold Bradley, a Catholic priest from Milwaukee, we co-founded the American Foundation For Children With AIDS and I served as President for several years, Board Director for quite a few years, and still sit on the Advisory Board (www.afcaids.org - just in case anybody wants to donate). Thirdly I founded the World Housing Foundation, which I found to be an extremely difficult endeavor and really did not have much success. I also spent a few years on the Kansas 7th District Judicial Commission, a non-partisan organization which recommended candidates in a highly political fashion to the Governor for District judges.

I travel a lot, an inordinate amount, some for projects, and a lot for pleasure. The goal is for Teri and me to see and do as much as we possibly can, within a few limitations. Life is good. Life is precious. I have survived too many medical issues to detail, a "widow-maker" at age 63 that I survived by the Grace of God, probably tops the list. I try to get up every morning and go forward. And I hope that going forward in 2018 allows me to see some of you guys in October. I never dreamed that I would possibly have that opportunity again.

Terry Miller

I was born and raised in Arcola, Illinois, which is 30 miles south of Champaign. I graduated high school in 1964 with 51 students. I went to the University of Illinois on a basketball scholarship and played three sports, football and track (discus) being the other two. I somehow graduated in 1968 with a degree in physical education.

I was drafted by the Detroit Lions in 1968 and finished up playing seven years in the NFL, the last five with the St. Louis Football Cardinals.

In 1976 I moved to Lexington, Kentucky, where I still reside. I have always been and still am in the "horse mortality" business, meaning that I write life insurance on horses. I have been married and divorced twice. My first marriage was in my senior year at Illinois. That lasted one year. My second was in 1975 and it made it three years. I have a daughter, Stephanie, who is 42, and a grandson, Chase, who is 20.

Now I'm going to tell you the rest of the story. I never had a drink of alcohol until I was 21 years old. I went to Kam's on campus and got wasted on April 11, 1967. From that day forward I always drank too much. Somehow I made it through those years in the NFL, but once I got to Lexington in 1976 the next eight years were a downward spiral. In 1984 I was bankrupt in every aspect of my life, and just before I died I walked into Alcoholics Anonymous. I have not had a drink or drug since then. It still remains the most important thing in my life.

Now I'm living the dream. I certainly have many stories of highs and lows, but that's enough for now.

Denny Mool

- Normal/Normal Community HS '63
- BS & MS in Ceramic Engineering '68: Bronze Tablet 1968
- Marketing MBA, Seattle University '72
- Great Memories of IM Sports especially football, Mort & 3 "hooks"
- Top blessings in the past 50 years: Great family and good health
- Nadya and I are at 51 years and counting; special thanks to Bill C, Stacy, Ron, Terry and Dick for helping us to get off to a good start.

- 3 "good guy" sons who have lovely ladies; living in Clarendon Hills, IL, Berkeley, and Portland, OR.
- 3 grandchildren (so far), who were a little late in coming, but worth the wait.
- My special needs brother, Eddie, at 77 continues his happy life in Bloomington thanks to his fantastic caregiving organization, Markfirst.

Jobs that enabled us to make lifelong friends in fun locations:

- Engineer at Boeing in Seattle; got MBA at Seattle University; '68 to '72
- International Business to Business Marketing:
Upper Montclair, NJ – Dart Industries; '72 to '79
Minneapolis/St. Paul – Dart & Honeywell; '79 to '93 & '98 to '02
Kronberg im Taunus, Germany – Honeywell; '93 to '98
- Mool Consulting, Inc., MN '01 to '07; Santa Rosa, CA; '07 to '11; (Bill Carey did a great job as my business accountant for 10 years. Always felt he gave me a Gamma Zeta discount!)

Sports have continued to be a priority:

- Lived to see the Cubs win the World Series!!!
- '85 Bears
- Coached sons' soccer for 13 years
- Slow pitch softball, basketball, tennis, and platform tennis in the past
- Now with my super new hip: golf, pickleball, hiking and biking

Currently our lives center around:

- Family in CA, IL and OR
- Enjoying life with friends in the Sonoma Wine Country and Palm Desert
- Travel: in CA, US and Europe – usually with biking involved

John Wallace Mulliken

I am John (but currently go by my high school nickname of "Mort"). I live in the beautiful Vail Valley of Colorado. I am a hometown boy from Champaign, Illinois, and attended Champaign High School. I was probably more serious about sports than academics, and played football, basketball and golf. Although I received a degree in finance and accounting from the University of Illinois in 1968, my passion for sports, particularly golf, has persisted to this day. I played intramural football and we won three IM championships. I was captain of the U of I golf team and was All Big 10 my senior year. My grades were good enough to graduate.

I have extremely fond memories of living in the house: incredible camaraderie and Po' Boy visits after hours.

My father, a well-known Champaign trial attorney, was killed in a car accident in 1967, an event that sent me reeling. Immediately thereafter, I married Margaret Wise and had 2 children: Matthew (who lives in Chicago, married with two children) and Mary (who lives in Portland with three children). Alcohol became one of my most comforting companions and led to the demise of my first marriage. I'm proud that I recently celebrated 29 years of continuous sobriety through the Grace of God and Alcoholics Anonymous.

From 1968-1978, I worked with Dave Downey at Mass Mutual, selling life insurance and administering pension plans. From 1979-1982, I was a minority owner of three Arby's Roast Beef restaurants in Spokane, Washington. It wasn't until 1983 that I realized my true passion as a full-time career. For the next 25 years, I worked as a PGA Golf Professional at numerous clubs in Portland, Champaign, Chicago, and, more recently, the Vail Valley. I retired as a PGA Life Member in 2009, but continue to pursue golf with gusto. I was able to shoot my age for the first time at 69 and then again a couple of months later at 70.

I grew up thinking (being told) that I was a Republican. For the last 20 years I have been a Democrat, doing my part

to change the color of Colorado to blue. I have lived in the Vail Valley since 2000, moving there with my wife Deborah Zwick, whom I tricked into marrying me in 1996 in Chicago. Deb is a practicing Clinical Psychologist who gives me free therapy every night. She recently told me that I'm starting to make some progress. We have a horse named Bojangles and a black Lab named Hogan (after Ben, of course), both of whom we treat as our children.

Since the year 2000, I've turned my second obsession and avocation into a thriving professional career, working as a wedding and portrait photographer, specializing in capturing people in the splendor of the Rocky Mountains.

I recently gave up skiing, with virtually no hesitation. I started late in life and really only enjoyed the chairlift rides and lunch. Keeping up with my wife on and off the slopes has been an on-going challenge.

In addition to being a golf fanatic, I have redirected my fitness energies into yoga and a newer fitness system, DaVinci BodyBoard. Finally, I am an avid reader and a diagnosed introvert. From where I sit, I'm livin' the dream.

John H. (Jock) Reising

Born in Chicago the second of four boys on August 28, 1946. Moved (with my parents of course) to Decatur, IL at the old age of 3. Attended elementary, junior high and one year of high school in Decatur. Attended Mercersburg Academy in Mercersburg, PA, the following 3 years. In addition to academics, participated in vocal and instrumental music programs and swam competitively, with our team finishing second in the 16-team Eastern Inter-scholastics my junior and senior years.

Enrolled at the U of I in the fall of 1964 living in off-campus housing my freshman year. Became an ATO Brother as a sophomore, barely enduring Friday night "exercises" as a frog. However, doing so was well worth it, as many friendships were made during the ensuing 3 years. Graduated with a B.S. in '68 with a split major in Chemistry & Physics, using electives to take business courses and bee keeping! Met Kathie Scott during my senior year at an ATO/Alpha Chi exchange, tying the knot a year later in Urbana in June of 1969. Dating her was difficult our senior years as she spent many hours editing The Illio, the 2-inch thick U of I yearbook, graduating with honors in '69 in the School of Journalism & Communications.

Following graduation we worked for 2 years in Decatur prior to my enrolling as a graduate student at Duke U., finishing with a Master of Hospital Administration degree in June of 1972. (Asking about football tickets when we got to Durham--having come from a Big Ten school--I was laughingly instructed to save our money for basketball!)

As attractive as the Carolinas were as a place to live, we decided to return to the Midwest where my first career opportunity appeared in Milwaukee with a voluntary, non-governmental health planning agency. Our charge was to assemble together many business and health care luminaries to jointly plan for consolidation of various facilities, programs and services within southeastern Wisconsin. Back then, CAT scanners were just hitting the market, so our group helped choose which hospitals would get these new toys. I moved on from there to serve in management capacities with several hospitals and medical practices. I also worked for a design/development firm building hospital-based medical offices buildings, and also for a medical search firm recruiting high-level managers and physicians. I'm currently working in property management for a small firm while enjoying some time off for golf, biking and other extra-curricular pursuits.

Kathie is retired from her career in cookbook publishing where she planned, developed and published books for several major clients. Our two grown daughters, Erin and Andrea, are busy with their respective lives. Erin is married and living in Milwaukee. She's a free-lance marketing consultant and an avid bicycle racer with her husband, Jon Ninmer. Andrea lives with her boyfriend in Portland, ME teaching art to under-privileged kids and spending weekends in the outdoors, kayaking, canoeing and cycling.

Kathie and I have lived in our home in Shorewood since June of 1976 and are contemplating downsizing to a condo in the longer term. We have loved the Milwaukee area and have transitioned from being "flat-landers" and following 'da Bears, to cheering on the Packers, Badgers and Bucks. Also, there's no shortage of outstanding cultural arts in town, including the award-winning Milwaukee Symphony Orchestra and the Milwaukee Repertory Theater. Our budget precludes golf at Whistling Straits, Blackwolf Run, Erin Hills, Sentry World and the new track at Sand Valley, but Wisconsin has become a great mecca for premier golf throughout The Midwest that makes us proud.

Roy Ricketts Jr.

Roy S. Ricketts Jr., 63, of Germantown Hills passed away at 10 a.m. on Wednesday, Nov. 3, 2010, at OSF Saint Francis Medical Center in Peoria. Roy was diagnosed with cancer in June 2010. He was born on Nov. 6, 1946, in Bayonne, N.J., to Roy S. Sr. and Roseann C. Desmond Ricketts. He married Melissa J. Hicks on Aug. 18, 1979, in Peoria. She survives. Roy is also survived by one daughter, Sarah (Richard) Rechif of San Diego, Calif.; and one son, Jeff Ricketts of Peoria. He was preceded in death by his parents. He earned his bachelor of science at the University of Illinois and earned his master of science in business administration at Illinois State University.

Roy was CEO at PARC since 2005, where he worked for 21 years. He also was a board member at the Peoria Arthritis Foundation for more than 20 years. He was a member of St. Mary's of Lourdes in Germantown Hills and the National Guard in Peoria for six years. He was a lifetime member of Timber Lake Country Club. He enjoyed golf and was a member of WC Fields Golf League. He also enjoyed the Chicago Bears and Chicago Cubs. The Ricketts Family would like to thank their relatives and friends who supported them during this time. A memorial service will be held at 11 a.m. on Saturday, Nov. 6, 2010, at Wright & Salmon Mortuary with the Rev. Robert Weakley officiating. Visitation will be from 3 to 7 p.m. on Friday, and one hour before the services. Cremation rites have been accorded. Private inurnment of ashes will be in Resurrection Mausoleum at a later date.

In lieu of flowers, memorial contributions may be made to PARC, 1913 W. Townline Road, P.O. Box 3418, Peoria, IL 61612 or Arthritis Foundation , 2621 N. Knoxville Ave., Peoria, IL 61604.

Tributes and condolences may be submitted to www.wrightandsalmon.com.

River Hills, WI 53217 414/354-7968 Cell 414/491-5868

Fall, Winter, and Spring
7968 SE Double Tree Drive
Hobe Sound, FL 33455 772/223-8040

Family History:

- Born 5/23/1946 Milwaukee
- Nicolet High School 1964; University of Illinois 1969
- Married Patricia Korf (Delta Gamma, U of Wisconsin) 1968
- Son Bruce, 1969; Son Andrew, 1972

After finishing U of I, I worked for several architectural firms in Milwaukee. In 1979, I joined a firm as a partner. (BHS Architects, Inc.) In 2004, I closed the firm and started Peter Schuyler Architects, LLC, which still exists, but is not very active.

Patty and I have been and continue to be very active volunteers and Board Members for a number of non-profit Organizations in both WI and FL. We play tennis almost every day, and enjoy walking, gardening, travel and being with our 4 grandchildren. Life has been very good to us, and we are blessed to have a wonderful family and countless good friends. We will celebrate our 50th Anniversary next year, and we are taking the entire family on a cruise in the Mediterranean.

A traditional bio might include a chronology of life since graduation from the Big U. That would surely include family, career, and maybe some aspects of retired life. For me, that bio would be measurably different without the four years shared with my brothers at Gamma Zeta.

If I had not pledged ATO at the beginning of my second semester of my freshman year, I am confident that I would have been sent home for academic reasons. I believe that I had mentally resolved myself to that fact after receiving dismal mid-term grades. Very shortly I was summoned to the room of Steve Kimball who was the Worthy Master. He proceeded to outline his embarrassment at standing up for me to be a pledge at ATO and very directly inquired about the reasons for my poor performance. Thoroughly chagrined, I apologized profusely and promised to do better. I added a point and a half to my GPA in the next six weeks and never had a problem again. Well...

My life since graduation has been and continues to be enriched by the friendships that were spawned in the brotherhood of Gamma Zeta. Some memorable events with brothers over the years include;

- A cross country trip with Bill Carey in 1971.
- 2 Rose Bowl and a Sugar Bowl visits with the Bess', Wrights, and Careys
- Great playoff games with the Bulls and Cubs with the Bess'
- Exploring Catalonia with the Careys and Mools
- East Coast golf outings with Mool, Carey, and Bess
- Colorado golf outing with Mort, Conck, and Willy Bob Carey.

It was brother Ron Bess who took a mid-week road trip to Denver and back during the Spring of 1968. Stopping in Carbondale on the return trek, he returned to Champaign with my bride to be. Patty and I are looking forward to our 46th anniversary in February. We were both public school teachers for 33 years. I had a dozen years in middle school and 21 at my alma mater, Wheaton Central. I coached a bunch and had enough success that I was able to keep a job.

We have two children; Deanna 41 and Ben 40. Deanna teaches at Naperville North and has two boys; Mikey 12 and Johnny 10. Ben works at Chicago Golf Club in Wheaton.

I retired in 2001. Patty in 2012. I was every man's hero for 11yrs. I play golf 3-5 times a week in decent weather, read a little and travel a little.

James Stevenson

Home Town: Lafayette Hill, PA High School: Plymouth Whitemar

U of I Graduation: BS 1967, DVM 1969

ATO/U of I Memories: Custom Triple Burgers in Odie's kitchen, climbing out of toilet seat and rolling in the hay at Out House Scramble, short cut through the Armory to keep from freezing to death in the winter, and room parties (who said that?!).

Career History: 1969 Graduated from U of I Vet School, moved to CA, small animal (pet) vet at Walnut Creek Vet Hosp. 1970 Berkeley VH, 1972 San Jose, 1973 Traveled throughout Europe and Morocco in VW camper, 1975 purchased Goleta Pet Hospital in Santa Barbara, specialized in pets, birds, including raptors (birds of prey), and any orphaned or wounded wild animals from Ca. Fish and Game for rehabilitation.

While living in SB I was elected PAC rep. for SB-Ventura Vet Assoc. and was able to shake hands with a few movie stars including Burl Ives, Charlton Heston, Shirley Temple Black, and Jane Fonda. Elected president of SB-Ventura VMA in 1977. Sold pet hospital 1999 and moved to Ithaca, NY and purchased a 60 acre derelict hay farm, dug a pond, built a house and called it "Lake View Lodge". Still living in the beautiful Finger Lakes of NY. While retired I have had fun

with interesting jobs such as working in a custom cabinet shop, winery, dictionary co. and relief or p/t vet.

Community Service: Created the first charter school in CA with five other founding families. Became a surgical scrub nurse for SEE (Surgical Eye Expeditions) and did field trips to Mexico to do cataract surgeries and other eye treatments, allowing people who had been blind for several years to see again!

Family History: 1978 purchased a 32' sailboat and lived aboard in Santa Barbara Harbor until 1985. During that time we cruised the southern coast of CA, Channel Islands and Catalina Island. Also in the same year I met a cute English girl who became my wife in 1983. We moved to dry land in 1985 because we were having my son Ian in 1986, followed by my daughter Tessa in 1988. For the next 11 years we enjoyed living, working, and raising a family, including many dogs and cats, in southern CA., with only an occasional wildfire or earthquake to threaten our world!

Hobbies: Bicycling 20 mi. trips to local village coffee shop; motorcycling to Adirondacks Park, NY, PA, KY, Montreal, boating on Cayuga Lake, NY, and many CA lakes; dragon boating.

Tom Svoboda

Graduated in 1968, commissioned in the Marine Corps as a second lieutenant and was sent to flight school with the Air Force (the Navy pipeline was backed up due to Viet Nam). Graduated in August of 1969 and became a fighter pilot. Flew the A-4 Skyhawk for four years. Got orders to Viet Nam, but our squadron was frozen and we were selected to go aboard the aircraft carrier U.S.S. Independence for 18 months. After a tour overseas, I became a General's Aide de Camp, the commanding general of the Fourth Marine Aircraft Wing. Served as his Aide for two years. He retired and I got out of the Marines in 1975. Joined the Illinois Bureau

of Investigation and worked Organized Crime. Stayed in the reserves at Glenview Naval Air Station and transitioned to flying the KC-130 when they switched to that airplane. Got called back to active duty in 1982 when the bomb in Beirut went off. Stayed on active duty in Glenview until they discovered a valve had gone bad in my heart. Got the valve replace at Bethesda Naval Hospital in 1986 and they medically retired me from the Marines. Went back to the State Police and they sent me to the FBI as a counter-terrorism agent. Did that the next 8 years until they disbanded the group since President Clinton determined that, "We had solved the problems of domestic terrorism in this country." Retired the second time and then took a job as a Marine Patrol Officer with the McHenry County Sheriff's department. Did that for 5 years until they asked me to be the Assistant Chief of Corrections in McHenry County. Took that job in July of 2000 and built the new jail negotiating a contract with the feds to house illegal aliens. Ran the county jail for 7 1/2 years and retired for the third and final time in August 2007. Have been happily retired since.

Dick Tate

- 1969-1972: University of Kentucky Grad assistant football and became full time assistant coach.
- 1973: Southern Illinois University Assistant Coach Football.
- 1974-1979: Hired by Jack Hart, former Illinois assistant coach, with Levi Strauss and moved to Michigan. Lived in Lansing, Grand Rapids, and Rochester, MI. Started as sales rep and promoted to Account Executive it was here that we ran into Bob Phipps, who became Mayor of East Lansing.
- 1979 to Current: Moved to St Louis and changed jobs. Hired by Osh Kosh B Gosh as Account Executive.

- Left clothing industry and have done various positions, all sales related.

Family History:

- Married Diana Walters in 1968. She was a Kappa at Illinois and a dance major. While at Illinois, she played lead in Stunt Show which Kappas and ZBTs paired and won.
- Kama, our oldest daughter, graduated from Miami of Ohio and has had several leadership positions in the nonprofit arena.
- Kyle, our son and second oldest, walked on in football at Illinois under John Mackovic. He had a diving accident 20

years ago and is a quadriplegic as a result. He went on after that to earn his law degree and lives on his own.

- Kellyn, our youngest, went to Michigan on a softball scholarship and had a great career. She is currently head coach at Puget Sound.

Duane Teske

I entered the University at the height of the space program and decided to major in aerospace engineering. I figured I was sure to find work and that girls would find the major sexy. I was half right. Upon graduation, I had 21 job offers, but initially decided to pursue an MBA instead. My draft board had other ideas. So to secure a job I could return to after military service, I accepted an offer at jet engine manufacturer Pratt & Whitney Aircraft in Connecticut.

Two weeks after graduation, I reported to their sprawling WWII era plant with 40,000 employees. I was an “Experimental Engineer”, the “right stuff” guys in the company. I had my own development jet engine and for the next five years I ranged far and wide through plant and test labs. The company had every machine tool and piece of test equipment known to man and I learned more about how things are made than I did at Illinois.

My work involved flight-testing the engines for the F-111 that the Air Force was trying to introduce into Vietnam. My draft board generally left me alone and, after those five years, they lost interest.

That seemed like a good time to revisit the MBA, so I left PWA and my wife and I traveled for a while. When the snow came, we took jobs at Copper Mt. Ski Area in Colorado with the intention of returning to school in the spring. Surprise! Our first child was on the way and I needed a “real job”. So I accepted an offer from Boeing and we returned to my parents’ house in Illinois to collect our belongings stored there.

Surprise! Boeing lost the contract and rescinded the offer. I was living with my parents and a very unhappy, pregnant wife - and no job. After daily trips to the library to consult national want ads, I found a job posting for Sundstrand Aircraft in Rockford. Sundstrand was primarily a machine tool company that was branching out into aerospace equipment.

The job was for the design and development of the auxiliary power units for the Space Shuttle. I accepted their offer, but really only planned to stay six months to a year. I stayed 32 years.

I was fortunate to join the company when their aerospace products were expanding at a rapid rate and the economy was growing. From the Space Shuttle I went on to development programs for a torpedo engine for the British Navy, a payload deployment system for the Space Shuttle, and a cooling system for the Space Station.

In the mid-80’s, I was promoted to Program Manager in the Electric Power division.. There, I led teams that developed the electric power systems for the MD-11, 747-400, 717, 777, and the F-35.

I retired in 2006 and am still in Rockford. Never got the MBA, but couldn’t have scripted a more interesting career.

Melissa Mehall and I married in 1969 after she completed her dance degree at Illinois. We have 2 children and 5 grandchildren.

Vern Tock

Located (see roster for contact info). No bio/photo submitted. Did not activate.

Greg Wright

- Graduated from SIU (Carbondale) 1969
- Taught elementary school in Niles, Illinois from 1969 thru 1973
- Married Sharon Klatt (from Des Plaines) celebrating our 43rd anniversary September 1st
- Left teaching and went on the road for approx. 6 yrs. with my brother Larry and our 5 piece musical band we put together (The Wright Brothers Band...it was sort of Righteous Brothers/pop rock thing). We toured Canada and the greater portion of the U.S. Did some TV spots and radio etc.
- We broke up the act in 1979. I shifted gears and started a successful career in industrial Real Estate (brokerage). I remained in that field for 34 yrs. just recently semi-retiring.
- I sang in a barbershop quartet (Chicago News) in the early 80’s and my quartet won the International Barbershop Quartet contest and became the International Quartet Champions of 1981. We sang concerts around the U.S. and even went to Europe.

- My wife and I have two wonderful boys, Austin, my youngest at 33, (in Boston with a private equity firm), is single but seriously dating a girl in Boston, and my oldest, Brandon at 34, who together with his wife Amanda own a successful craft brewery and brewing supply company, Werk Force Brewery and Chicago Brew Werks in Plainfield, Illinois. Brandon and Amanda are expecting their first child (our first grandchild) in Nov.
- While I am semi retired, my wife and I keep pretty active schedules...she is an award winning fiber artist (www.sharonwrightfiberart.com) and we occasionally travel to her out of state shows. I am currently very active in a country band I put together (www.comstocklodecountryband.com) where I am lead singer/arranger/song writer and acoustic guitarist. We average 25 - 30 shows a year.
- My wife and I (as often as we can) steal up to beautiful northern Wisconsin (Minocqua) where we have had a lake home for 22 yrs.

John W. Wright

John Wright is the CEO and former Managing Partner of Wright Financial Group, one of 92 network offices for one of the largest and most well respected financial firms in the world. In his 27 year leadership tenure, John has grown his office from \$750,000 million to over \$9,000,000,000 of insurance in force and managed over \$1 billion of assets. With all that being said, he more importantly prides himself as a coach and teacher.

John has recruited, trained and developed over 10% of this company's field leadership. He has field leaders running and managing offices in Chicago, Madison, Minneapolis, Des Moines, Cincinnati, Atlanta, Los Angeles, Seattle, to name a few. In addition, he also is a performance coach for many professional and "corporate" athletes.

John is a sought after speaker on a national scale, both to corporate leaders and professional athletes. He was voted top speaker at the NFL National Rookie Symposium six times. He has spoken to or facilitated life skills camps for the Indianapolis Colts, Chicago Bears, Baltimore Ravens, Green Bay Packers, Cleveland Browns, Atlanta Falcons, Tennessee Titans, and Denver Broncos.

John's 80 acre estate, which he calls Greyfield, has become a learning and training center for a multitude of extremely successful people, such as; CEO's of Fortune 100 companies, company leaders and Forum Reps, NFL Hall of Famers, Super Bowl champions, NFL All Pro's, MBA All Pro's, NCAA Champions, Olympic Gold Medalist's, world famous authors, plus a lot of wonderful, everyday folks have come to have fun and to change the way they think.

Personally, he was an All-State and All-American high school football player in Wheaton, Illinois. He was a state champion and state record holder in track. He was an All-American and Academic All-American in college and graduated from the University of Illinois at Urbana-Champaign as the leading receiver in the school's Big Ten history and 5th all time in NCAA history. Wright was a three-year letter-winner from 1965-67, was a two-time All-Big Ten receiver and played in the NFL with the Atlanta Falcons and Detroit Lions.

Wright, his father, Bob, and his son, John Jr., are the only three-generation Illini football family. In addition, Wright and his son, John Jr. are the lone father-son first-team Academic All-American honorees in college football history. For the last three decades, Wright has run a successful insurance and investment business in Champaign. He was honored by the University of Illinois as the 1998 Varsity "I" Award winner of the year.

Finally, John is even a published author, with his first book now available on Amazon. Its title is *Bullshit - A Good Word and A Vital Part of Leadership*.

CLASS OF 1969

Peter Boline

Education: BS in Education, University of Illinois; MA Education, Saint Xavier University

Work: Retired, High School Vocational Education, Rockford Public Schools

Family: Married, forty seven years; Wife: Ann; Two sons, one a Civil Engineers and the other a chef

Leisure time activity and hobbies: Woodworking, Travel, Golf

Curtis Canfield

- Left the U of I in January 1966.
- Drafted into the Army October, 1966, to August, 1968; Vietnam from August, 1967, to August, 1968, in 1st Cavalry Division.
- Southern Illinois University in Carbondale, 1969 to 1972, BS in Production Management.
- Union steamfitter, 1972 to 2009, retired December, 2009.
- Married to Diane for 31 years with no children.
- Current activities include as much golf as possible, yard work, babysitting nieces and generally taking life as it comes.

John Concklin

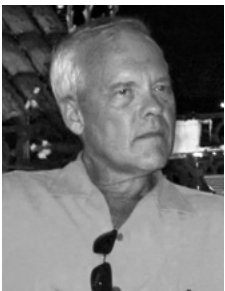

I graduated from Bloomington Central Catholic High School in 1964. I went to the University of Nebraska as a recruited walk-on swimmer. Realizing I was not a 'Husker' I transferred to Illinois my sophomore year, pledged ATO and never looked back. I played IM football and basketball during a period which we won several IM championships in both sports.

I earned a degree in Marketing but my real interest was investing. I received my MBA in 1970 and started as an Analyst in the Investment Department of State Farm Insurance. I spent 42 years there, ultimately running the Fixed Income and Equity areas over the last 20 years. We managed in excess of \$150 billion when I retired in 2012. My career allowed me to extensively travel the globe, as we were active investors in both developed and undeveloped markets around the world.

I have served on both corporate and non-profit boards, although since retiring I only work with a couple of non-profits. I remain an active investor and particularly enjoy early stage venture investing. I am an avid reader and still enjoy golf, although recent back surgery has limited that. I have become something of a fitness acolyte.

Probably my most notable accomplishment was in 1970 when I convinced Sue Ellen Gentry, a Phi Mu and ATO Sweetheart, to marry me. We have 3 kids, Johnathon, 43, Melissa, 40, and Elaina, 38. Only Elaina followed us to Illinois and was a Gamma Phi. All the kids are married, and blessed us with 7 grandkids, with one more due February, 2018. Six of them are 7 years or under, so we stay busy being grandparents. They are all within two hours of us which allows us to see them often.

My life has been blessed. I have a phenomenal wife, a great family, many friends, and tons of fond memories—hopefully with many more to come.

Marc Cooper

I was raised in Paris, Illinois and attended Paris High School, graduating in 1964. I enrolled at the U of I after graduation and roomed with Dave Wright (Burlap to the brothers) at Forbes 3W for the first year. The following year I pledged ATO. I graduated with a BS in aeronautical engineering, and a few years later I earned my MBA at the University of Missouri, KC.

Right out of college I took a job with Douglas Aircraft in Long Beach, CA and worked on the DC-10 in the Flight Loads and fuselage groups. The bottom fell out of the aircraft industry in the early '70's and I eventually was included in the 25,000 man layoff. I made my way back to the Midwest in Kansas City, MO and took a job as an engineer at Parmelee Industries (US Safety), a manufacturer of safety equip-

ment (eyewear, respirators, etc.), and eventually became VP Operations. Parmelee was sold to a company in Memphis in 2014, and our exclusive Canadian distributor (Dentec Safety) purchased the respirator portion of the business and hired me as VP Operations to get it established here in the US. I am still in that position and will probably retire in the next year or so.

I got married to a Paris girl, Robin Bibo, in 1970 while still in California. We moved back to KC in 1972 and rather quickly had 3 kids, 2 girls (Jaime and Kelly) and a son (Chris). All are in their 40's now and all are doing great in their respective occupations. Like so many, our marriage eventually went south and we divorced in the early 1990's. I was single for about 13 years until I met my current wife Cyn in 2005. We carried on a long distance relationship for about a year (Grand Junction, CO – KC) and got married in 2006 in Hawaii. She has 3 kids about the same age as mine, and together we have 13 grandkids, mostly here and in Denver, with one in Sacramento. Cyn is my blessing and we are very, very happy.

Favorite memories at ATO...there are many. Hell Week events are certainly memorable; still won't touch burlap. Out-house Scramble, the toga party, football and basketball games, the Wisconsin walkout and learning the song Melba are but a few more. Above all are the many friendships that I made there.

David B. Daley

Education

- University of Illinois School of Law, J.D. 1973

Residence

- 1830 Indian Bend Drive, Henderson, NV 89074
- Peoria, IL from 1974 until 2005
- Las Vegas area from 2005 to 2014
- Moved back to Peoria in 2014
- Back to Las Vegas in 2016

Marriages

- 1969 to Linda Ellsworth. Divorced 1990.
- 2015 to Tina Guard - Marriage to Tina after a short (15 years) courtship

Children

- Aaron, Adam and Alison, born, respectively, in 1974, 1976 and 1980. Living in Arlington, VA, Houston, TX and Peoria, IL. Each healthy and happy. All a parent can hope for!
- Grandchildren: Parker, Emerson, Grant and Palmer (Yes, those are their first names, not their last names.)

Prior Occupations

- Sutkowski & Washkuhn Assoc., Peoria, IL from 1974 to 1994.
- Par-A-Dice Gaming Corporation, East Peoria, IL from 1994 to 1996. Corporate and commercial law and litigation attorney
- Vice President and General Counsel. Jim ("Duke") DeBord a major shareholder of Par-A-Dice

Current Occupation

- Legal Counsel, Boyd Gaming Corporation, Las Vegas, NV
Ended up with Boyd when Par-A-Dice acquired by Boyd in December 1996. Retired at end of 2012 from position as Vice President and Assistant General Counsel. Re-upped in 2016

Interests

- Any physical activity, Las Vegas Athletic Club, Golf. Golf will start again now that I have bionic hips
- My work

Favorite Sports Teams

- Bears, Illini, White Sox, Bulls, and Golden State Warriors
Why the Warriors? Saw Shaun Livingston and Andre Iguodala play in high school; Shaun for four years

Bill 'King' DeBord

I left the bosom of Champaign-Urbana in May of '70 with a BS in History and into the welcoming arms of the US Army Induction Center on the South Side of Chicago. They sent me to Fort Polk, Louisiana, for Basic & AIT. Ninety-eight of 100 recruits in my company went to Vietnam. I and another guy went to Ft. Huachuca, AZ, where I eventually worked my way into a position as an instructor at the education center.

I was joined at Ft. Huachuca in 1970 by my college sweetheart Carol Alesandrini (Theta), who was a Pan Am Stewardess out of JFK. At one point, she was held at knifepoint by a hijacker who wanted the plane to go to Puerto Rico. While being subdued the hijacker kept raving, "My father owns the xxxking islands!"

Turns out his father did own the xxxking islands, so Pan Am gave Carol tickets to go wherever in the world she wanted to go. She came to me in Arizona.

Within a couple years we moved back to Peoria. I went to work for Caterpillar as a gear washer in the factory (to my surprise, with a U of I degree in History and all). Carol went to work in the office in computers.

I applied for & got a job in Caterpillar's Marketing Training Class, graduated, & we went overseas, living in Geneva, Switzerland, & Abidjan, Ivory Coast. During this time we had our first child, Nathan, born on a rainy morn in Abidjan, May 4, 1978. We saw a lot in Africa.

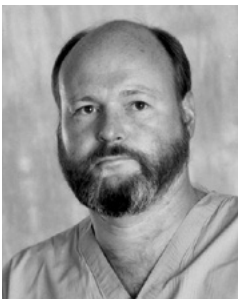

Overseas life was different with kids. I resigned a year later & we returned to the U.S. with the view of starting a brand new life.

To my surprise we returned to Peoria...the draw of family. We became street vendors selling homemade Italian food from homemade old school pushcarts to our former colleges at Caterpillar and other downtown offices. We also added 3 more kids, Oriana, Catarina & Zach. Our pushcart days were great, but no matter how good or clever you are as a street vendor it's hard to make enough for "4" college educations, so in 1989 I went back into industry with a Caterpillar start up company. We lived our lives in Peoria & went to our kids soccer games.

In 1998 I went back to Caterpillar as the Waste Industry Marketing Manager, again traveling the world. I retired in 2013.

In retirement, Carol & I are very engaged with our kids & grandkids. We now have 5 soon 6 grandchildren scattered from Pekin, IL, Columbia, MO, & NOLA. We live in a small town with 5 generations of family (Carol's & mine) that interact daily. Our life is, I imagine, old school.

If I were to die tomorrow—assuming it was like an Illi Bus or heart attack in my sleep or something sudden & painless—it would have been a great life. No complaints!

James R. DeBord

I was born in Chicago 2/23/1947, grew up in Peoria, IL, and graduated from Richwoods High School, where I was 2 x High School All American in Swimming. I was lucky to pledge ATO GZ at the U of IL and my freshman year was awesome—even the hazing, rack outs and paddling. It was amazing because of all the FROGS in my class—we became very close and I remain close to many of them today. I am really looking forward to the reunion. I have remained very close to my roommate in the SIN BIN, Bill Aylesworth, and we created much ATO lore there together—such as Odie finding one of my lost snakes in his pantry and the famous Siamese Fighting Fish bouts (The Finned Fury vs The Giller)—betting allowed! I earned 3 Varsity Letters in Swimming at Illinois (freshman ineligible then).

I married Margaret Plunk on June 15, 1968, and moved out of the house then. I graduated on time in 1969 and earned a Master's Degree in Immunology across from the House at the College of Vet Med.

I entered the U of I College of Medicine in 1970 and graduated with my MD in 1974. I spent 5 years as a surgery resident at the University of Illinois Hospital (Cook County Hosp and West Side VA Hosp included). I joined my father in the practice of surgery in Peoria in 1979, and am still actively practicing and teaching. I am currently Professor of Clinical Surgery and Chief-Division of Vascular Surgery and Vice Chair-Department of Surgery at the Univ. of Illinois College of Medicine at Peoria. I have published over 40 peer reviewed articles in the medical literature and written 12 Surgical Textbook Chapters. I have served as President of the Peoria County Medical Society, The Illinois Surgical Society and The Midwest Surgical Association and was Vice President of the Chicago Surgical Society and The Western Surgical Association.

In 2004 I was awarded the “I-Man of the Year,” the highest award given by the Athletic Association for post-college achievement, and in 2015 I received a similar award from the College Swim Coaches Association of America. This was special because it was presented to me by my daughter, Frances, the associate head coach for men and women’s swimming at the University of Iowa. In addition to surgery, I have been active in banking and the Riverboat Casino business, among other pursuits. My hobbies involve golf, hunting and fishing, and cooking. Margie (hard G) and I have four children: Byron, 45-years old, a construction manager for a large contractor in Chicago, graduated from Columbia Univ in NYC where he was on the swimming team; Joe, almost 43-years old, who graduated from Emerson Univ in Boston and was the hockey team goalie, is a teacher in Chicago-married to Pam who is also a teacher; Frances (Frannie), 39-years old, who swam at Iowa and graduated from there, has been a swim coach at Ohio Univ, Fresno State, Tulane and now back at Iowa as associate head coach for both men and women’s swimming (sold her house in NOLA 30 days before Hurricane Katrina!). She is married to Sean, a logistics person for CRST, a large trucking company, and they have two children, Nathan-8 and Betty-5. Celia, 36-years old, is my only Univ of Illinois grad, with a marketing degree from ACES and a Master’s degree from Bradley Univ in Counseling. She is a Counselor at Dunlap High School(suburb of Peoria) and is married to Brad who is a history teacher at the same school. They have two boys, Nolan-7- and Andy-3. The grandkids are a treat as many of you know.

I will probably retire June 30, 2019, which will be 40 years in the practice of surgery. I will be 72. Looking forward to seeing everyone next October.

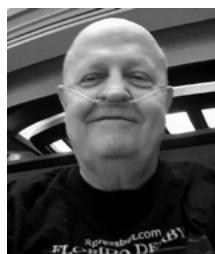

Rick Drysdale

- Graduated U of I w/BS in Finance
- Trust Officer @National Bank of Detroit, initially working in personal trust then moving to institutional trust
- Graduate school @Temple University, Philadelphia, PA, Masters in Exercise Physiology
- Certified by American College of Sports Medicine as Registered Exercise Physiologist
- Certified by National Strength and Conditioning Association as Certified Strength and Conditioning Specialist
- Lead personal trainer and exercise consultant Mandell Jewish Community Center, West Hartford, CT
- EMT-IV Tech for Rocky Hill (CT) Volunteer Ambulance Association
- Semi retired in St. George, UT-hiking and photographing the beautiful area of SW UT never gets old

Greg Duncan Dye

Gregory Duncan Dye, 22, of 1975 S. East Gate Dr. was killed in a hunting accident Sunday morning, November 23, 1969, in Marinette, Wisconsin. Greg Dye was born in St. Louis, a son of Wilber F. and Eileen Hanks Dye. He was a member of Central Christian Church and was a senior at the University of Illinois. Greg Dye left his parents, brother Bradley at home and a sister Pamela of Miami, Fla.

Updated details: Near Wausaukee, Wisconsin, Greg was hunting with his brother, the Rev. Bradley F. Dye, when Greg wounded a deer. When Greg started tracking the wounded animal, Greg tripped and discharged his rifle. The Decatur Review, reporting on the incident on November 24, 1969, noted that the bullet struck him. After emergency treatment, he was taken to the hospital. He expired during transit.

Jim Ellis

I started working at the Chicago Board of Trade in 1970 and purchased the membership in 1981. I ended up working in the Corn Futures pit, among others, until 2003. I sold my membership then for far too little and retired because there are no more future pits.

I was married in 1990 and adopted my wife’s son. She died in 1996 at 43; our son was 11. We got through that as well as can be expected, and, for some reason only God knows, Devon went to Santa Clara University and graduated in 2007. He is living in San Francisco.

I’m in a condominium in Las Vegas I purchased 5 years ago. My doctor has me on oxygen and they have no idea what’s wrong with me. My mobility is pretty low, but I seem to find time for the sports books and an electric wheelchair helps.

All of you enjoy the reunion, Jim AKA OJ AKA Gramps

Anthony Ferrantino

- University of Chicago, John Dewey Laboratory Schools and National Association of Biology Teachers.
- I have been a high school biology teacher all my life. Currently, I am teaching AP anatomy and physiology, San Jose Unified Schools.
- At the University of Chicago Laboratory Schools, I was the author of *Biological Sciences Curriculum Studies Blue Version-Molecular Biology*.
- Joined University of Chicago Laboratory Schools right out of the University of Illinois in 1969.
- I have 128 children every September when school starts and enjoy a happy marriage to my check-book.
- ATO has been a treasure in my life, and I have been dedicated to our brotherhood for 50 years.

Jack Fleck

Like all of the class of '69 I faced the prospect of being drafted upon graduation. After much deliberation, I decided to join VISTA. I spent a year in Arkansas during which I got a high lottery number and never got drafted; but seeing poverty and racism up close politicized me way beyond what I had experienced at the U of I.

I went to graduate school in City Planning at the University of California in Berkeley and became even more involved in various movements for social change. After a number of jobs ranging from day care to bookkeeping to truck assembly, surprisingly, in 1985 I ended up as an engineer for the city of San Francisco—doing exactly what I had studied to do at the U of I! I retired as San Francisco's City Traffic Engineer in 2010.

Since then I have worked nearly full time as a climate activist with 350 Bay Area, supporting solar power, electric cars, renewable energy and supporting a socially just transition away from coal, oil, and gas.

I have two boys from my first marriage, and am happily married to a zany Filipino Star Wars fan, Ayda. Both of our sons work in the film industry; Ryan is co-director of the upcoming Captain Marvel movie scheduled for release in March, 2019.

John Palmer Foote

I grew up in the St. Louis area and graduated from McCluer High School in Florissant, MO in June, 1965. My father had graduated from the University of Illinois in the 30s, so I decided to apply there. At the time, that reason seemed as good as any.

I came to the University of Illinois in the fall of 1965 as an ATO pledge (nickname: "Palmer"). After my sophomore year in 1967, I transferred to the U. of Missouri Journalism School to major in advertising.

Memories of U of I and ATO are below. (My list may be shorter than most—it only covers two years.)

- Sleeping in the icy "dorm"; being "racked out" in the middle of the night; "assuming the position"; the "elephant walk"; working with steel wool on the walls on the 1st floor; our pledge books where we received inspiring comments from the brothers. (My book was as long as "War and Peace" by the end of the semester.) "Hell Week" burlap underwear (I washed mine and made it worse) and our pledge class "walk-out" to Wisconsin are other memories.
- Working for our cook, Odie Wilson, waiting tables and washing dishes. Also, Odie's coffee cake.
- The impromptu "bucket brigade" of booze that formed when Tom Crickmer's room caught fire.
- Streaking the campus sophomore year. Everyone else ran and got back before I did. I was out of shape even then and had to walk back, with a few very short "runs" to get past street lights.
- Kam's on Friday afternoon. Home of the smallest grill ever. Did anyone ever order a burger?
- Going to "Po' Boys" after dates. Also, that wonderful smell that your breath left in your room. It was waiting for you when you woke up the next day (especially if you had hot sauce).
- Poker games (and "Boo-Ray") in my room, "The Library". Is "The Library" still there? Does it still have burlap "wall paper"? I hope not.
- Apologies to Jeff Secord, for interrupting his studies and to the brothers I bombarded with water balloons from the roof when they returned to the house after dates one night.

After graduating from Missouri, I tried to sign up for the Marine reserves, but was disqualified for high blood pressure (I still have it). That ended my prospects for serving Uncle Sam. I then joined an ad agency in St. Louis, but wanted the

“big time”. A visit to my ATO pledge father, Chuck Lund, in New York resulted in a job offer from a friend of his who was a VP of a small agency in Manhattan. After that job, I went to Ogilvy & Mather as an account executive. After several years at O&M, an offer at Young & Rubicam came along. I worked on some big accounts (Sanka, Oil of Olay, Colgate and Gillette Right Guard to name some) and a few that had side benefits (e.g., Cunard line). Later, there were stints at Heinz/Weight Watchers and in consulting (Sprint, CompuServe and 3M were some of my clients).

Along the way, I got married and after six years in Manhattan, we moved to Connecticut. The marriage ended because of illness (we got sick of each other).

I'm now remarried (17+ years) and retired. My wife, Donna, worked at Ralph Lauren and Calvin Klein and now does interior design/decorating to keep busy. We live in Connecticut and enjoy boating, antiques, traveling, going into NYC for “culture”, reading and a few close friends (other friends have retired to warmer areas or gone on to the “Great Beyond”). I also go to the gym a few times a week.

I hope you all enjoy reliving the good old days at the reunion. I know it was fun for me just to list some of my memories. I'll be thinking of you. Have a drink (or two) for Palmer.

Dennis George

I left U of I after my junior year to attend dental school at Northwestern University. Looking back, I wish that I had stayed to finish my senior year.

After four years at Northwestern, I entered the US Navy as a dentist. I served in North Carolina as well as on a ship overseas.

I returned to Northwestern as an assistant professor of clinical dentistry. After six years of teaching, I set up my dental practice and have been practicing for the last thirty- eight years.

I've been married for 46 years, have three children and three grandchildren. I live in South Barrington, Illinois, where I enjoy woodworking, the stock and options markets and the game of golf.

Greg Griffin

I have been a Chicago person all my life. I attended U of I at Champaign from 1964 to 1969. I lived in the ATO house my sophomore year. My father died at the end of that year and so I stayed home for my junior year and attended the U of I circle campus for a year. I returned to Champaign to finish my college career and lived in an apartment during that time.

I went to work right after graduation at the Joliet Arsenal. I was a Quality Control Supervisor. I attended Loyola University and received an MBA while working for Uniroyal at the arsenal. I left the arsenal in 1971 and taught school for six months in Chicago. I then went to work for M&M/Mars as an Industrial Engineer. I was fortunate to rise rapidly in the company in the manufacturing area. I held positions as shift manager, Industrial Engineering Director, Maintenance Director, Production Director, Plant Manager and Vice President of Manufacturing. My work career at Mars spanned over 30 years.

I was married to my wife, Pat, in 1972. We had two children, a boy and a girl. They are now married and have gifted me with five grandchildren. Pat developed lung cancer in 2013 and fought hard but she had a very aggressive form and she died in July of 2014. I was able to retire in 2001 so Pat and I were able to have quite a few years of retired life together. Life is certainly different now but it's still good. I'm lucky that both my kids live nearby so we can do a lot of family things together.

I try to keep fit and I like to golf and ski. We bought a summer home in Michigan in 2002 and I spend a lot of time there in the summer.

It seems crazy to think that college is fifty years behind us. I hope to live to see the Illini rise to prominence in football and basketball but that's probably a pipe dream.

Tom Gulley

- Benton, IL.
- Married high school sweetheart Jane Ellen Donosky in June 1968. Fifty year anniversary June 20, 2018.
- Graduated BS in Finance 1969.
- U.S. Army 1970-72, 11 months in South Viet Nam. Sergeant, 92nd Finance Corps, Cam Ranh Bay.
- Graduated U of I College of Law January 1974.
- Practiced law for 9 years in Benton, then 3 years in Evansville, IN, then 27 years in Albuquerque.
- President, Albuquerque U of I Alumni Club, 1988-95. Recipient, Alumni Association Loyalty Award 1995.
- Three children (2 in Albuquerque, 1 in Denver), 7 grandchildren (5 in Albuquerque, 2 in Denver).
- Retired in 2013, Jane retired in 2017 after 30 years as a registered nurse.
- We are enjoying family, friends, golf, travel and the simple life.

Allen Hall

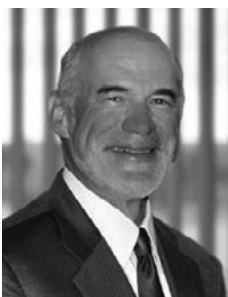

- Home Town: Tuscola, Illinois; High School: Tuscola High School
- Degrees from the U of I—undergraduate, masters and doctorate in educational administration
- Was a school superintendent for 35 years in various Illinois School Districts
- Married to Becky for 28 years. Two daughters and four grandchildren. Married to Janet from 2001 until present. Janet is a retired registered nurse.
- Janet and I have traveled to 50 states in the U.S. and to all 7 continents. We have been on 19 cruise ship excursions.
- Current hobbies include: duplicate bridge, golf, travel, yard work, reading, working out and watching grandkids play sports.

Mike Hardinger

Work: Post graduation I worked with the DuPont Company for 26 years. I held several different positions over my career in the Agricultural Sciences Department and the Consumer Polymers Department, the last of which was Vice President and General Manager of the Consumer Polymers Department. In 1996 I led an IPO spin out of a DuPont Electronics business, and became CEO and Chairman of the resulting public company, which was headquartered in Austin Texas. I ran that company for six years, and then retired to North Carolina in 2001. Retirement was boring, so I started a real estate company which I sold in 2010. Retirement took this time.

Life: In 1970 Cara Youngren (Kappa Kappa Gamma-Illinois) and I were married. We love golf, our farm with horses, dogs, cats and one donkey, and our many friends. We have many nieces and nephews that we enjoy spending time with, but have no children of our own. We travel extensively both domestically and internationally, and have done most of our travel the past 20 years on BMW motorcycles. I also spend a lot of time working, camping, and hunting on my timber farm. We are in good health and remain able to do all the things we love. I have been involved with the Boys and Girls Club organization at the local and state level for the past 18 years, and find working with the Clubs to be a great opportunity to give back in a small way to those who are often not so fortunate. Life is good and Cara and I feel we have been very fortunate.

John A. Helfrich

1947-1965

“Innocence is like a dumb leper, who has lost his bell, wandering the world, meaning no harm.”
Graham Greene - *The Quiet American*

- Raised in Paris, IL; my family owned and operated Helfrich’s Florists (1900-1980) founded by my German immigrant and Great Uncle Johannes A. Helfrich.
- Son of the Middle Class; German-born father (immigrated to US in 1929). Multi-generation American mother who worked for the Works Progress Administration (WPA) in the FDR years;

- both were children of the Great Depression. Nothing we have done compares to what they overcame in their lives.
- Was on PHS Track, Basketball and Football teams. Co-Captain of football team senior year; played on two consecutive undefeated football teams at Paris High School
- At 50th Paris High School Reunion in 2015, was founding Donor for STEM Teacher Development Fund for the then-new Paris High School facility. First STEM Teachers received training in 2016.

1965-1971

Steer a middle course between naivety and cynicism. Never cave into the “world weariness of the cynic.” Steer towards skepticism

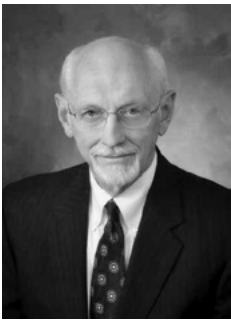

- B.S. Journalism/minor Bus. Admin (1969); M.A. Industrial Relations and Organizational Development (1971); both degrees from University of Illinois
- Managed facility scheduling U of I Intramural Sports Dept. at Huff Gym; Chairman of ATO Intramural Sports; Staff Sergeant-Tactical Fighter Wing, Air National Guard (Terre Haute, IN)
- ATO years were great fun; good group of guys; the best of memories
- At ATO, we had diversity of thought; liberal and conservative; urban and rural; socio-economic classes. Very Illinois-centric ; lacked racial diversity.

1971-Present:

When you suspect malfeasance, do not rule out incompetence

- Accepted offer out of Graduate School at Tenneco Automotive-Walker Group in Racine, WI (45 minutes south of Milwaukee).
- Met Ms. Jacquelyn Minch (native of Kenosha, WI); married June 16, 1973. Jackie graduated from Wisconsin State University at Whitewater, WI with B.S. Education. She taught 3rd Grade in WI and VA. In life, business and sports, the most important decision is who one’s partner is.
- We have two sons, Brian and David. Brian (39) and his wife Pamela have two boys: Jacob Ryker Helfrich (5) and Nicholas Maximus Helfrich (1 ½). David (37) has a serious relationship with a woman who was born in Baghdad, Iraq and who lived through (age 14) the aerial assault and bombing campaign of the 2003 Iraq Invasion. (every story-two sides). Now 28 and a US Citizen. Wish you could all hear her (Duaa Zahra) story. Both our sons live in Rye, NH about 15 minutes from our house. We have lived in New Hampshire for 25 years; spend winters in Naples, FL.
- Lived total of 35 years on the East Coast of the US. Our sons were born in Cedar Rapids, Iowa. Both graduated High School in NH. Brian graduated from U. of New Hampshire; David from James Madison U. (Harrisonburg, VA) and Howard Law School (Washington, DC)
- Retired from Tyco International (\$42 Billion Revenue; Global) 2005 as Chief Human Resources Officer and SVP; worked in the Automotive and Shipbuilding sectors with Tenneco; Commercial and Defense Electronics with Rockwell International; was Investor/Executive with a Private Equity-backed LBO of Mueller Co; sold to Tyco International (1989). Joined Stanton Chase International (70 offices in 40 countries) Global Executive Search Firm as Partner in 2006 still occasionally collaborate with former colleagues on Leadership Development and Talent Acquisition.
- We have been to most countries in Europe. Also China, Australia, New Zealand. All the Canadian Provinces except Prairie Provinces. We live 5 hours by car from Montreal and Quebec City and enjoy the drive up through the White Mountains of NH and on into Quebec Province.
- We were busy with career and family. But always carved out time for travel. Met Jackie’s relatives in 1993 (her Maternal Grandparents emigrated from Torino, Italy; kissed more men in Italy in one day at the family reunion dinner arranged than have rest of my life!; met my father’s family in Waibstadt, Germany in 1985-travelled to Germany to meet with my Uncles, Aunts and Cousins for the first time-Uncles Oskar Helfrich and Hermann Helfrich and Cousin Hildegard Boppel met us at our hotel in Heidelberg. Tears and warm embraces flowed. Our sons have both traveled to Germany and stayed with their Cousins. A Helfrich has lived in the same house in the Old Town (Altstadt) of Waibstadt since late 1700s. About every 2-3 years the German Helfrichs visit us here in US or we visit them in Europe.
- Served as Chairman and Member of Board of Directors for Exeter Area (7 NH Towns) Chamber of Commerce; Chaired the Valve Manufacturers of America -Human Resources Committee; Graduate of Leadership Seacoast (NH); Coached youth basketball team on trip to Lithuania (Vilnius and Kaunas)

“Be who you are and say what you feel, because those who mind don’t matter and those who matter don’t mind.” - Dr. Seuss

Barry Hines

I was born and raised in Springfield, Illinois, attended Springfield High School and graduated in 1965. I was active in football and basketball, though my sports career ended with my high school graduation. As a freshman at the University of Illinois, my grades were my strong point, and I was recruited as a pledge in the second semester of my freshman year. Unfortunately, my grades the second semester of my freshman year did not nearly equal my first semester, and I spent the balance of my undergraduate days working to raise my grade point average. I was successful, and after earning a B.S. in accountancy, I was admitted to the University of Illinois College of Law where I spent the next three years, married now to my wife, Linda, graduating in 1972. I had a

strong academic performance in law school and thought I wanted to practice on LaSalle Street. I interviewed Chicago firms but, on a chance opportunity, interviewed a firm in my hometown of Springfield over Christmas break. Their offer to me was financially equal to anything that had been presented to me by Chicago firms, and there was no commute. My wife was in favor of returning to Springfield so, following law school, I joined the firm of Barber & Barber, an old-line real estate and estate planning law firm with a strong agricultural following. I remained with that firm for thirty-six years, making partner after four years, and becoming the managing partner of the firm.

My law career has been a jealous mistress. I still work full-time, now as a sole practitioner. In 2008, I left the Barber, Segatto, Hoffee & Hines firm to run my own shop. I had a rather romantic notion of how that would work. I thought I would work less hours, under less pressure. I planned on taking a few months off before starting my solo practice. In fact, I never got a day off. Within one week of announcing my separation from the Barber firm, I was in a new office. I worked longer hours and with more intensity than I did even as an associate with the old firm. However, my days were busy, the weeks flew by. Now, I found out what that support staff had been doing for me because I was doing it now plus practicing law. Working alone has many rewards, but also a few disadvantages, principally, it is difficult to leave the office for an extended period. There is no one to cover for me, so I am either working at the office or if on vacation, working on the iPhone. However, I would not go back.

I have been blessed with a successful practice. I have received high rankings from my peers, for example, being named the last four successive years as the number one agricultural lawyer in the State of Illinois by Leading Lawyers magazine surveys. I am very active in continuing legal education, both writing and lecturing, and editing practice materials, in Aglaw, commercial real estate and estates.

My wife, Linda Smith, and I have been married since August of 1969. We have three children: Brett (45), Blake (41), and Heather (38). We have three grandchildren. Besides work, I count among my hobbies, oil painting, hunting, gardening, Colorado skiing (which I am afraid I have seen my last season), and recently bass fishing in the many farm ponds I have access to, because you cannot hunt all year round.

In my community, I serve on the Board of the Hope Institute, an organization serving autistic children and their families in both the Springfield and Chicago areas. I have served two terms on the Board of Directors of the Abraham Lincoln Presidential Library Foundation, which supports both the Presidential Library and the Museum. The Presidential Library is my most rewarding work outside of the practice of law, I am very proud of the facilities and the programs we support.

I have no plans for retirement. I am set in my ways and like what I do. I thoroughly enjoyed my years of association with the Chapter and its men. ATO was considered one of the best, if not the best, Greek House on campus when we were there. Excellence has been my standard as well in all aspects of my career and personal life. ATO was an important incremental step and a thoroughly rewarding and enjoyable experience in preparing for my life's work and raising a family.

Ron Ingram

Where did the time go?

1970-71: After graduating in 69, Nan and I taught for two years in the area. Nan taught in Champaign, I taught in Rantoul. After the two years of teaching, I decided to go to graduate school at the U of A in Tucson, Arizona. Nan got a job teaching and I had a graduate assistantship teaching in the P. E. Dept. and helping coach the Wildcat baseball team.

During that year we fell in love with the Southwest. I got high on the mountains, the weather, and some of the Mexican imports. The latter changed my perspective on life, and influenced me to let my hair grow and to eventually enter what I refer to as my hippie years.

I didn't try to get a job in AZ, I was too busy hiking the mountains, and enjoying my newfound meds. I had a job to go

back to in Rantoul, so we headed back to Illinois for the 72-73 school year.

1972-73: I returned to my old job, but my heart wasn't in it. I resigned in the middle of the year. Nan and I embarked on a five year odyssey during which time we became vagabonds of sorts. We worked odd jobs, traveling between Illinois, Arizona, Mexico, and California. Nan's sister, Marje, preceded us in the hippie movement. She ended up in the San Francisco area; what better place to be in those years. During those years we would spend the summer in Illinois, and head south and west as cold weather approached.

1977-81: Finally, in 1977, after 5 yrs. on the road and with a 3 yr old daughter, We decided to settle down. We opted for the Southwest. We moved to a small, historic mining town in the mountains of Southeast AZ. Bisbee, located in the Mule Mountains, is a mile high town with a great year round climate. Our elevation moderates the heat during our one hot month, June. We enjoy 2 1/2 to 3 months of Indian Summer type weather in the fall. We are virtually a border town. Our golf course is blocks from the border.

Needless to say, Bisbee has a strong Hispanic culture. We have lived in Bisbee for 40 years. In 1978, we had a second daughter, Shane. Both of our daughters grew up in Bisbee and are doing great out in the big world, Angela in LA and Shane in Phoenix. We have 3 grandchildren, two boys in LA, ages 9 and 6, and a granddaughter in Phoenix, age 4. Much of our time since retirement is spent planning our next trip to see our daughters, now 43 and 39, and their families.

Eventually Nan and I got back into teaching. I ended up teaching 27 yrs, Nan 25. Nan taught kindergarten and I taught high school. I coached baseball, football, basketball and tennis, primarily baseball and football. My 1994 baseball team won the 2A state championship and I was named 2A coach of the year for the state of Arizona.

I am still a real sports fan, and cheer for the Diamondbacks and the Dodgers. My son-in-laws, both Hispanic, were born and raised in LA. and are Dodger and Raider fans. Nan and I have become avid golfers and attend tournaments and watch on TV. We went to this year's US Open in Wisconsin. We are both bogey golfers.

Living in a border town for 40 years and having Mexican son-in-laws, we have acquired a strong feeling for the Hispanic culture. We just returned from a short trip to Mexico on Sea of Cortez, which is less than two hundred miles from Bisbee, as the crow flies.

I truly enjoyed my two years in the ATO house. Nan and I got married after our junior year (we had our 49th anniversary in August) and I lived in the dorm my freshman year. Those two years in the ATO house fostered countless unforgettable memories. I look forward to revisiting those memories at our reunion.

Mark Kern

Located (see roster for contact info). No bio/photo submitted. From personal contact, it is known that Mark obtained a PhD in Education and eventually became President of Rend Lake College in Southern Illinois. He is currently retired.

Mike Lindsay

In the fall of 1965, I left my hometown of Rockford, Illinois and headed for Champaign to move into the ATO house. I thoroughly enjoyed those years and can say the experience was definitely a positive in my life.

In June of 1969, I graduated from Illinois with a Bachelor of Science in Accountancy with a CPA designation. Several years later (1975) I completed an MBA at Northern Illinois University.

Kathy and I were married in January of 1969. When I graduated, being drafted looked pretty much like a certainty so we went back to Rockford. I got a job as a CPA and Kathy finished college. Then I won the Nixon lottery with number 307 and was able to think in a little longer terms.

In 1973, I became Accounting Manager for Woodward Governor, a Rockford headquartered manufacturing company.

In 1983, I went into the investment business with Dean Witter that is now a part of Morgan Stanley. I have worked as a financial advisor and office manager in Rockford for the last 34 years.

Kathy and I have 3 sons and 5 grandchildren. Our oldest son, Brian, has worked with me at Morgan Stanley for the last 17 years. Our second son, Patrick, is involved in the real estate development business. Our youngest son directs and produces movies and he lives in LA.

I assume I'll have to retire at some point in the not too distant future but have no definite plans. For the last several years Kathy and I have spent most of January and February in Siesta Key Island in Florida. We are not so enthusiastic about the cold weather anymore.

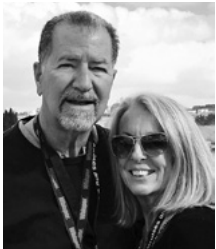

Over the years I have enjoyed playing golf in many great places. I have also enjoyed spending a great deal of time playing competitive card games.

All and all this has been a great life so far and I'm hoping for more of the same in the future.

Park T. Livingston

Vice President: Park has been with Puritan Finance since 1977. Prior to joining Puritan, he worked in Commercial Banking at American National Bank. Park's responsibilities include underwriting new deals, managing existing relationships and generating new business. He is a graduate of the University of Illinois.

Doug McAllister

Graduated from Rockford East High School in Rockford, IL in 1965.

Graduated in 1970 with BSCE.

Many great memories from ATO days, but the pledge dorm, the jokes, and the camaraderie going through the pledge time, and building relationships are some of the best memories.

On February 27, 1971, I married Carol Brown, a Champaign girl, that I met while we were attending the Illinois State Fair in Springfield the year before. We moved to California and have lived in Orange County for most of our married lives.

My life changed dramatically in 1973, when I accepted Jesus as my personal savior. I definitely have a long way to go and advance in my Christian walk, but I have never wavered in my faith since that time.

We have been married 46 years and have four married daughters ranging in age from 44 to 35. They are all married and they have given us 21 grandchildren with ages from 1 to 18. All of our children and grandchildren are also Christians. Our prayers are that all of them continue trusting in the Lord. That would be the number one legacy that we would want to leave.

Regarding community service and awards: All of our years we have been serving in a local church in some fashion or another: I have been teaching adult fellowship classes for over 30 years. We have been trained and taught premarital counseling and marriage counseling, and have counseled and taught over 500 couples over the last 30 years.

Regarding awards received: President George H.W. Bush honored our family as the 647th recipient of his 1000 points of Life program for community service with our service to the old people in convalescent homes and hospitals for 10 years of volunteer service.

Current life: I retired from day to day operation of my company 9 years ago. The company supplies commercial doors and hardware to the building industry and one division does installation and finish carpentry for commercial construction. Two men that worked for me for 25 years are buying the company and it will be sold as of 1/10/18.

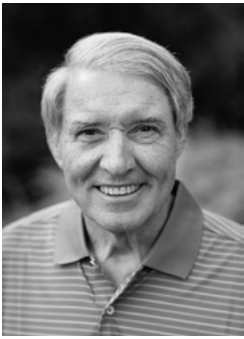

I have spent the last nine years working with our church, Kindred Community Church, in Anaheim Hills, CA. The church is a non-denominational Protestant church. I volunteered to set up a national radio program featuring our senior pastor, Philip De Courcy, and today you can hear him nationally on over 700 Christian stations. The program is Know the Truth. We have now replaced me in that role with a full time executive director.

While setting up the radio, the church asked me to be the Executive Pastor of the church, and I have also been doing that for the last 8 years.

Carol has been pressing me to truly retire and I have agreed to do so in June of 2020 when one of our granddaughters (she lives about 10 minutes from us) graduates from high school. She is blind, and I spend a great deal of time tutoring her, so I want to stay until she graduates.

We have built a home in the Nashville area close to two of our daughters and 12 of our grandchildren. We will spend at least 6 months a year there after retiring.

We have had a truly happy and blessed life. All praise and glory to God.

Terry "Jet" McDaniel

I am from a grain and livestock farm just west of Paris, Illinois. Paris is a town of about 9,000 and is 40 miles southeast of Champaign. The first two years of high school I attended Brocton High, which had an enrollment of 96. My grade school coach became the Paris High School football coach and recruited my brother and me. I played football and basketball. Our football team was undefeated two years in a row. I was the 160 lb. pulling offensive right guard. Our senior year we tied the first game against Tuscola. John Helfrich was our quarterback and Allen Hall was the quarterback for Tuscola. I was vice president of our senior class and John Helfrich was president. Attending Paris High School with a class of 215 gave me the confidence to attend the University of Illinois.

When I attended the freshman orientation, the advisor told me that I would probably need to get a tutor for English, as my ACT English scores were marginal. I got a D in freshman rhetoric and a C my second semester, which meant I needed to pass the essay exam to graduate. I failed the exam 3 times and then they dropped the requirement or I would probably still be there. I actually started out in engineering but changed my major to agriculture the second semester. The good news is that I increased my grade point 8 semesters in a row and graduated Alpha Zeta from the College of Agriculture. When I graduated, I realized that to be successful I needed to work on my English. For seven years after graduation I never owned a television; I read books.

I have lots of fond memories from my ATO years. I had a wonderful childhood, but, living on the farm in Paris, I was very sheltered from the real world. I am sure there were times I came across as a redneck, but to be honest that is where I came from. I was the first child on my mother's side to graduate from college. I once saw a training film entitled, "You are what you are, what you were when." The most wonderful memory I have from ATO is that it helped open my eyes to the world into which I was about to graduate and where I would try to survive.

When I was a junior at the University, the war was still very active and they issued everybody a draft number. Mine was pretty low, so that August I applied to the Illinois Army National Guard in Champaign. To my surprise, they called me in October and told me I needed to be in Fort Lewis Washington in two weeks. After eight weeks of basic and nine weeks of advanced infantry training, I returned to the University to complete my senior year in the fall of 1969. Unfortunately, when I returned, our unit was called up twice for the University riots, where I was once across the lines from some of my ATO brothers. That is something I will never forget.

In 1970, after graduation, John "Mike" Hardinger and I went to work for Dupont Agricultural Chemicals. Dupont hired three new chemical representatives that summer and Mike and I were two of them. I spent 29 years with Dupont in various sales and marketing assignments in New Jersey; California; New York; Geneva, Switzerland; Florida; Delaware and Iowa. I traveled to all 50 states and 28 foreign countries, mostly in Eastern and Western Europe, the Middle East and Africa. I have met amazing people in all my travels. The bad news is that when Monsanto came up with Roundup Ready corn and soybeans our industry was downsized over 50% in 5 years. I went through five downsizings, two major mergers and a joint venture. I finally was downsized when I was the Director of Sales for the U.S. and Canada for Optimum Quality Grains, which was a joint biotechnology venture formed to bring Dupont and the Pioneer Seed Company together. We had 130 people in a joint venture with no biotech products to sell. When Dupont bought Pioneer, the joint venture was dissolved and I was downsized. I got a call from an old Dupont buddy who was national sales manager for Cargill Hybrid Seeds. They needed a new manager for Iowa. I went to work for Cargill, which sold the seed division a year later to the Dow Chemical Company. I had a wonderful career for 25 years, and then, in the last 10 years, I went through merging three different corporate cultures, getting downsized, and getting sold. Then I quit. I was 54 years old and was finished with all the politics, back stabbing and endless meetings. So how did I end up in North Carolina? My daughter, Lindsey, had an Appaloosa horse that she was showing across the Midwest. Mike had already retired and had his horse farm in Southern Pines, so we decided to move Lindsey and her horse to North Carolina for her senior year in high school so she could ride with Mike.

The best thing that has happened to me is when my buddy Mike introduced me to my future wife Carol. Carol also happens to be Terry Miller's cousin. In 1975, I was with Dupont in California and Mike was in Vero Beach, Florida. Carol was from Mattoon, Illinois, the home of Mike and Dick Tate. Carol was a beach bum and decided to move to Vero Beach to teach. Mike and Cara helped her get settled. Mike called me and told me that he had just the girl for me. I told him to give me her address and I would write her a letter. I started writing her in April of 1975, picked her up at the St. Louis airport for Christmas, saw her twice in 1976 and got married on September 5, 1976. Carol's major goal in life was to be a wife and mother. She absolutely loves children and is now the model grandmother. Carol and I have three children, Bryan and wife Socorro and son Joaquin, Laura, and Lindsey and husband Wes and son Wesley. Bryan attended

the University of Arizona, the University of Iowa and DePaul University where he received his master's in International studies. Bryan taught English in China, Ethiopia, and Honduras, before going to work for the Citizens Utility Board for the state of Illinois, where he is now the director of government affairs and does their lobbying work in Springfield. Laura attended Duke University, got her masters at the University of North Carolina and spent one year in a Harvard PHD program. Laura specializes in severe mental illness and is now a manager of social workers at UNC's WakeBrook in Raleigh. Lindsey attended North Carolina State University in Landscape Architecture. Since getting downsized in the 2008 crisis she has been a professional photographer with an emphasis on equestrian photography. She, her husband and son live in Rocky Mount, NC.

Besides having served on numerous church committees, I have also spent my retirement volunteering at Habitat for Humanity, Military Missions in Action, and the American Red Cross. I spent 5 years with the Red Cross going on several deployments and being on the local fire response team. However, during the past 3 years I spent every other month on the farm looking after my father. He died in April of 2016. My parents lived on the farm for 70 years and were big antique collectors. It took my brother and me two months to prepare for the farm auction.

My hobbies include hunting, golf, investing, reading and traveling. Carol and I are leaving August 14, 2017, for a two-month trip through Canada and several National Parks, including the Canadian Rockies, Glacier, Yellowstone, and the Grand Tetons.

Carol and I are living the good life and we absolutely count our blessings every day. I truly appreciate the role ATO played in expanding my world while at the University of Illinois.

Robert A. Naponic

Illini QB Drafted by the Houston Oilers in the 10th round (256th overall) of the 1969 NFL Draft. Played one season.

Sharpshooting soph QB Bob Naponic took over in '66 and found receiver John Wright on sixty of his seventy completions. Wright picked up 831 of the 998 passing yards Naponic was responsible for and with the young QB's 225 additional yards gained on the ground, that summed up the Illini offense.

Donald Newell (1947- 2016)

Donald Mark Newell, 68, of Northfield, IL, formerly of Winnetka, IL and Chicago, IL; passed away June 10, 2016 after a brief but strong battle against cancer. Born in Laramie, Wyoming on November 2, 1947, he was the son the late Donald J. and Priscilla K. Newell. He was a 1965 graduate of Barrington High School in Barrington, IL. He earned his BS in Mechanical Engineering from the University of Illinois Urbana-Champaign in 1969 and an MBA in 1971 from the University of Chicago. He was the founder of several trading companies and developer of unique proprietary trading strategies. Mark had a passionate thirst for knowledge across a seemingly endless variety of subjects, which translated into him being an avid collector, amateur photographer, and voracious reader. He is survived by two sisters, and his beloved wife of 47 years, Sara (nee Pope); two sons, Donald (Tina) and Matthew (Hanna); and grandchildren Annika, Peter, TJ, Imogen, and Isla.

Robert Nicolette

CHAMPAIGN — Robert Lane Nicolette, 81, of Champaign passed away at 1:12 p.m. on Sunday, Dec. 6, 2009, at the Champaign Urbana Regional Rehab Center, Savoy.

Mr. Nicolette was born on Oct. 31, 1928, in Chicago. He was the son of Anthony O. and Rose Skaluad Nicolette. He married Judith Dawson on Aug. 2, 1958, in Champaign. She survives.

Also surviving are one son, Lane (Serra) Nicolette of Champaign; one daughter, Amy (Tim) Born of Champaign; one son-in-law, Cary Izzi of Morton Grove; seven grandchildren; and one brother, John (Geraldine) A. Nicolette of Winnetka.

He was preceded in death by his parents and his daughter, Jill Nicolette Izzi.

Mr. Nicolette served in the U.S. Army in the Armored Tank Division during the Korean Conflict. He graduated from the

University of Illinois with a degree in physical education. He was head trainer of athletics at the U of I from 1954 until 1969 and real estate broker with Nicolette Hoggatt Dawson Realty. He was a member of Kiwanis, served on the Boys and Girls Club Council, volunteered for Champaign Central High School football as trainer, and for many years served as trainer for the state wrestling and basketball tournaments. He enjoyed fishing at the family cabin in Wisconsin and cottage in Michigan. He attended the First Presbyterian Church of Champaign.

Comments from Bo Batchelder:

Brothers -

Nick and I became close personal friends and spent a lot of time together—he taped my ankles and knees every practice and game day for 3 years. In the course of our conversations, he mentioned that he missed pledging a fraternity and enjoying the type fellowship and camaraderie he saw with the Taus (~6 Taus were Fighting Illini at that time). I asked if he wanted to pledge ATO and he answered, “absolutely, but I’m too old.” I responded with, “it is not about age, it’s about the heart.” Nick was first a pledge and then was initiated with others in a formal ceremony in the chapter room in 1966. It was an honor to have Nick on the roll of ATO brotherhood.

P.S. Nick and I, and our Judy’s, continued our friendship. I saw Judy Nicolette at the Spring Practice Reunion Weekend and we reminisced about the good ole days (1963-67).

Bo

Daniel Lynn Ogden

Daniel Lynn Ogden (Dan), 65, of Scottsdale, Arizona, formerly of Decatur, passed away on Tuesday, February 19, 2013, at Scottsdale Healthcare Thompson Peak Hospital in Scottsdale, Arizona.

He was born in Decatur, Illinois on April 7, 1947, to Howard L. and Janet Y. Ogden. He married Linda Gulino in Decatur, IL at First Congregational United Church of Christ on August 17, 1967.

Survivors include his wife Linda who lives in Scottsdale, AZ; his son, Darren Ogden of Kauai, HI; his daughter, Dr. Beth Ogden of Surprise, AZ; father, Howard L. Ogden of Decatur IL; brother, Tim Ogden (Connie) of Decatur IL, brother Kevin Ogden (Cindy) of Springfield, IL; brother and sister in law, Don (Sue) Torris of Chandler, AZ; cousin Dick (Cheryl) Ogden of Springfield, IL;

nephews Matt Ogden of Decatur, IL, Jeff Ogden of Edwardsville, IL, and Eric Ogden of Springfield, IL; nieces Jennifer Ogden Tom (Casey) of Springfield, IL and Andrea Ogden Morris (Jarred) of Troy, IL and several aunts, uncles, cousins, great-nieces, and great-nephews.

He was preceded in death by his grandparents, mother, Janet Y. Ogden and one brother, Larry Ogden.

Dan graduated from Eisenhower High School, Decatur, IL in 1965. He attended the University of Illinois, and received his BS from Millikin University, Decatur, IL in 1969.

He started his distinguished career with Firestone Tire and Rubber as an executive in the Decatur, IL plant in the 1960's. His career with Firestone took him to Indiana, Michigan and Texas before being named executive vice president of Bridgestone/Firestone's North American tire operations in Akron, OH. He relocated to Des Moines, Iowa to become president and chief operating officer for EMCO Enterprises, Inc. Upon returning to the tire industry in 1997, he finished his career as president and chief operating officer of Yokohama Tire Corp.'s U.S. operations in Fullerton, CA. He retired from the tire business in 2001. For the last nine years he had been a realtor in Scottsdale.

Dan enjoyed playing golf, traveling with his family, and watching for coyotes from his patio at sunset. In his youth, he swam for the Decatur YMCA swim team, and played football and baseball at Eisenhower High School, where he was a pitcher on the EHS 1964 State Championship team. He was instrumental in the startup of the JFL football league at Firestone Field in the late 60's. Those who knew and loved Dan will always remember his contagious smile and warm heart. He will surely be missed.

John A. O'Malley

- Hometown: Chicago, IL
- Taft High School: Class of 1965
- University of Illinois: Urbana-Class of 1969
- BS-Business Admin. (Finance). ATO-Class of 1969
- Favorite Memories: Meeting first wife, sleeping in open air attic, freshman baseball team, basement beer drinking/music at Cams, relationships with the ATO brothers.
- Deferred from military service (College, High Lottery #).

- DePaul University College of Law-JD-Class of 1973.
- '73-'77-Cook County States Attorney-Felony Trial Prosecutor
- 1978-2008, Private practice-Civil Litigation
- Married 1969 (met at U of I)

Child: Mary-MD, Board Certified in Internal Medicine, Infectious Diseases, Tropical Medicine. (My greatest contribution to the world). Divorced '74

- Married Jill '76
Children-Tara, Colin, All practicing Broker/Realtors in Chicagoland.
- Retired from law practice in 2008; Now Energy Consultant with Hudson Energy supplying gas and electricity to commercial consumers.
- Obsessive sports fan/player/spectator for 65 years.

Tony Pleviak

I grew up in the northeast corner of Illinois right on Lake Michigan and the Illinois-Wisconsin state line. The town was Winthrop Harbor and I went to high school in the next town south called Zion. My high school was Zion-Benton Township High School and was about 2000 students. I played football, basketball and baseball. During my senior year I was recruited by Pete Elliott and given a football scholarship to the U of I. I loved college football and was elected captain for my senior year. I graduated in 1969 with a degree in Physical Education and Drivers Ed. I was drafted by the Atlanta Falcons, which was the "degree" I really wanted. I was cut by the Falcons but was asked to go to Huntsville, Alabama, and play for the Alabama Hawks of the Continental Football League. One year of that was enough, and I re-enrolled at the U of I.

One year of that was enough, and I re-enrolled at the U of I.

In the summer before my senior football season I married Judy Codd of New Canton, Illinois. She was a Kappa Delta. Our parents all thought we were crazy. But we were in love and couldn't see any reason to wait. We lived that year in an apartment of about 500 square feet. We thought it was a palace because the apartment complex was brand new and it was decorated in the beautiful shade of orange so popular in the late '60's. As I said earlier, we lived our first year out of college in Huntsville, Alabama. I had been promised a good day job and to play football at night and on weekends. Judy taught special education at a local school and I ended up working days at a shoe factory making military boots for \$1.60 an hour. That's when we decided that this was not the exciting life we had envisioned and decided to return to the U of I and try to get into dental school. After two years of chemistry, physics and biology classes, I was accepted to the U of I dental school in Chicago. I graduated in 1976 and we immediately moved to Topeka, Kansas, where I began my 40 year career in dentistry. Judy immediately retired to start our family and become a full time mother. We had adopted our oldest when she was six days old during my freshman year in Chicago. We had three more children over the next few years in Topeka.

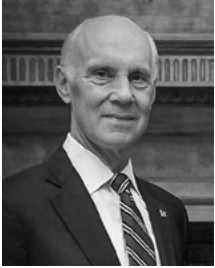

We have four children. Amy, Andrew, Alyson and Anne. They are all married and have given us 10 grandchildren, one grandson and nine granddaughters. Grandsons may be active, but nine granddaughters can talk forever. We love them all and they provide enough activities that we are constantly busy with football, volleyball, band, soccer, and grade school programs. All of our grandchildren live within an hour and a half of Topeka.

I retired on May 31, 2016. I loved every minute that I practiced, but I totally love and enjoy retirement. I often think now, "How did I get up and go to work everyday?" Judy only gave me one order about my retirement... "don't interfere with her routine". So far our church has kept me busy enough building set designs and furniture that I have not disrupted Judy's schedule.

Dan Ribble

I am sorry that I am unable to attend the upcoming reunion and wish the best to all and my thanks for the truly great memories. It has been fun hearing from the old guard and saddening to note the losses. As to me, I graduated from the UI College of Law in 1973 with my JD. I took and passed the Bar in Illinois that year with and at the same time as brother David B. Daley. My practice took me to courts across the country and I ended up licensed in Illinois, Minnesota, New Mexico and spent my practice years in the representation of members of the rail road unions. For the last twenty years I have lived in and practiced in Albuquerque, NM, and am now retired. I married Lynn Hadley, U of I '70 and '72 in 1971 and we have been married for 46 years. We have two sons, David, who lives in San Jose, CA, and Michael who is living in New York City. Although they are a long way apart, both live in fun places to visit. Retirement is busy with golf, SCUBA, cycling, hiking in our mountains and much travel.

Jeff Secord

- ATΩ/U of I Memories
Unquestionably...with the brothers help and encouragement, I improved my first semester mid-term from 1.9 to 4.125 final GPA. That failure-to-success experience has stuck with me in a positive way through my whole life. Thank you all!! (Have a framed mat of grade reports in my home office as a constant reminder)
- Meeting new friends like Steve Yahn whom I stayed in touch with until his untimely recent death.
- Odie's coffee pot. Can only drink coffee with my left hand since I learned to drink coffee late-night while taking notes with my right hand.

Education

- Illinois State University, Business B.S. 1971
- Illinois State University, Business M.S. 1973
- Loved U of I...but needed part-time school/full-time work after first marriage in 1967

Business [Too many business cards to list them all]

- Independent financial planner and investment advisor forty-four years and counting. Still feel I add value to individual client families and have education initiatives to improve financial literacy for the masses. Our Central Illinois team has offices in Bloomington, Champaign and Decatur. Enjoy meaningful work every day. Twenty-six years in Illinois.
- Started with Merrill Lynch in 1973 in Southern California where we spent eighteen years. [I loved So. Cal.; Carol hated it...so, we moved. Women win those battles!]

Family

- Regrettable first marriage to Debbie 1967-1971; two children; two grandchildren
- Terrific second marriage to Carol 1973 and counting (Carol Schuster; ΣΔΤ, U of I, 1969); two children; two grandchildren

Hobbies/interests

- Running, golf, drums, chess
- Illini, Cubs, Bears

Community

- Chair ISU Finance Dept. Advisory Board and Institute for Financial Planning and Analysis Round Table
- Illinois Prairie Community Foundation Board and Development Committee Chair

Bill Stammer

Located (see roster for contact info). No bio/photo submitted. From personal contact, it is known that Bill obtained an advanced degree in Pharmacy and practiced pharmacy in Southern Illinois.

Harold (Birdman) Vanselow

I want to thank Jack Matzer, PK Johnson, Roscoe, Art Becker, and Redball for all of their help during my first year of college, roommates Willy Bob, Burlap, and OJ for carrying me to the finish line, and brothers Ron Ingrum and John Stacey for their continued friendship through the last half century. I also want to thank Mrs. Andrews for trying to smooth some very rough edges.

I married Chris Becken in January '70, the same month I graduated and began working for the ICRR in Chicago. We lived in Hyde Park and Beverly, had two kids (Shine '72 and Joe '74), and divorced in '76 when I also left the railroad. My career there was highlighted by having my staff and me being named the outstanding marketing group in US railroads in '75.

After touring the country in late '76 and early '77 looking for a place to land, my life partner Carol Shaddy and I settled outside of Cornucopia, WI, at the northern tip of WI. We live on 74 acres of 100+ year old mixed deciduous and coniferous woods, on the south side of Little Siskiwit Lake, in a log home that four guys on my softball team built for us. We had two daughters (Phoebe '77 and Willa '82) who we raised with Shine on the homestead we carved out of the woods that has a large organic garden, turkeys, ducks, rabbits, and geese (which we butcher for their meat), and a small orchard. Carol has also shot the occasional deer in our woods which we then hang and butcher before the coyotes have their way with the carcass.

Carol and I both were employed by Northland College (The Environmental Liberal Arts College) for thirty years in a variety of capacities. I taught Business courses for 25 years and was the VP of Finance and Administration for the other five, during which time I was responsible for building four campus buildings along with the NCAA regulation baseball and softball fields, all for a total of nearly \$40 million. We had a daily commute of 25 miles each way, mostly through the Chequamegon National Forest where our traffic hazards were limited to deer (four car/deer crashes in thirty years) as well as the random black bear, coyote, or wolf.

After taking early retirement from the college in '07 I took a part time job as the bookkeeper of the Chequamegon Food Co-op in Ashland, the same town in which the college is located. That job morphed into becoming the General Manager and my third career. I ended that job and finally retired in mid '16 after moving our co-op into a 125-year-old building which we remodeled, tripling our retail space and doubling our sales to well over \$4m. That job was the best I ever had, working with the best people I ever worked with, and working for the best Board a person could ever hope to work for.

Carol and I are avid birders, having identified more than 180 species on our little plot of ground over the last forty years, plus hundreds more throughout the US, MX, and parts of Europe. We have been fortunate enough to have had a nesting pair of sandhill cranes in the wetland our screened porch overlooks for the past decade and regularly have bald eagles feeding in the same area. But our best birding experiences have been with the resident pair of ravens that live year around on our land and come to the feeding station whenever we call them (often to feast of some road kill I brought them).

All three of our daughters had baby boys in '13 so I am awash in 4-year-olds this summer. I would welcome any of you to the north woods. Bayfield, on the other side of our peninsula, is the headquarters of the Apostle Island National Lakeshore and with its marinas and sailboats looks a lot like some New England port. There is lots to see and even more fresh air and clean water to soak up and in.

David Wright

I was born on November 2, 1946 in Paris, Illinois. My father was a World War II veteran, and I was among the first wave of baby boomers. I was the oldest of four children; two younger brothers, and one younger sister. It was probably rare that four "parasites" were in our 1969 pledge class. Marc Cooper, John Helfrich, Terry McDaniel, and I were all friends growing up in Paris. I sure hope we all can make it to the reunion! I was active in Key Club during High School, and lettered in four sports. Our football team (quarterbacked by Hound) was the only undefeated team since my father played.

I entered the University of Illinois in the college of Engineering, switched to business in my sophomore year, and graduated with a degree in Marketing. I have many fond memories of my college years, especially the times I spent with ATO brothers. I remember celebrating intramural championships down at Stan's, and who could forget the inspiration we received from the famous Hound call? I remember many late night philosophy discussions, and King interpreting

movies like Cool Hand Luke.

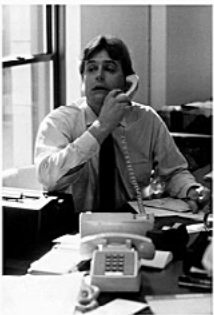

Unfortunately, the Viet Nam War was at its peak when I graduated, and Uncle Sam informed me that he sought my service. Fortunately, I was accepted into the Air Force Officer Training School. I became a missile launch officer in scenic Grand Forks, North Dakota (the only state flatter than Illinois). It's scary to think that I had more destructive power with that key in my hand than there ever had been in the history of the world. I caught a break when the Air Force decided to transfer me to Vanderbilt Air Force Base in sunny California. It was great to be able to take weekend trips to Los Angeles to visit my childhood friend and ATO brother, Marc Cooper. I received my honorable discharge orders in 1973, and returned to Paris, IL to help grow the family business; Feutz Contractors. It wasn't long before I moved to Champaign to expand the business, and I have lived there ever since.

My first marriage did not work out, but our daughter Whitney was a blessing. She is a valued employee of mine, and has given us three wonderful grandchildren. I was blessed again when I met and married the love of my life, Marilee. She had three sons from her first marriage; Brian, Eric, and Tyler. Together we then had two children of our own; Logan and Kelly. They are all doing well pursuing degrees and/or advancing their careers. We call ourselves the Brady Bunch. I know that some blended families don't work, but ours most definitely has! Marilee received her undergraduate and graduate degrees in Clinical Social Work from the University of Illinois. She is a very special person who has devoted her life to helping others who are less fortunate.

I am still running the family business where I am known as the President. In past years I served on the Board of Directors for the Associated General Contractors of Illinois, and have been active in Rotary Club and St. Mathews Parish and School. I have been a longtime supporter of U of IL athletics, which has not been easy. I used to play a lot of tennis, and golf. That's changed since both knees have been replaced. I do still play golf, but unlike Mort, I will not shoot my age unless I live to be 100.

My wife and I recently purchased a home in Santa Rosa Beach, Florida and head south every chance we get. Together we take walks on the beach, swim, and go biking in the State Park that is almost in our back yard. Family and friends are frequent visitors, and our back porch is known for long laughs and tall drinks. Give me a call and we'll book you a room.

Worthy Keeper of the Burlap Bags, Dave

Steve Yahn

Founding editor of Crain's, dies at 69

Soon after Crain's Chicago Business debuted in 1978, Steve Yahn's scoop on a massive reorganization at Sears helped establish the magazine's credibility. (Andrea Rock)

Steve Yahn was a business and features writer at the Chicago Daily News before becoming the founding editor of Crain's Chicago Business in the late 1970s.

"He just loved ideas and...he would get so excited and he didn't care if he got the credit or not," said Crain Communications President Rance Crain. "He was great at getting people enthusiastic."

Yahn, 69, died June 28, 2016, of Parkinson's disease at Westchester Medical Center in Valhalla, N.Y., said his brother, Kurt. He was a resident of Ossining, N.Y., and previously had lived in Evanston.

Born in Janesville, Wis., Yahn moved with his family to Rockford as a child and graduated from Rockford East High School. After earning an undergraduate degree from the University of Illinois at Urbana-Champaign, Yahn worked briefly as a reporter for the Rockford Register Star.

Yahn then joined the now-defunct Chicago Daily News as a reporter, writing business stories and also pieces for the paper's features section, Panorama.

"I remember Steve as a brilliant business reporter of profiles and hard news," said Dan Miller, a Daily News colleague who later succeeded Yahn as the editor of Crain's. "His profiles were vivid portrayals of their subjects, and his analysis of financial markets was insightful and savvy.

"Steve always was working — at bars and coffeehouses, at concerts and poetry readings, at business conferences and seminars, meeting people, collecting stories, developing sources."

Yahn left the Daily News in 1973 to work for Pensions & Investments magazine. Two years later he joined Advertising Age — also published by Crain Communications — as a New York-based senior editor. In 1978, Rance Crain tapped Yahn to be the first editor of Crain's Chicago Business. That work entailed helping develop a prototype and hiring a staff

for the magazine's debut in the spring of 1978.

"Steve Yahn and I were exactly on the same wavelength," Crain recalled. "He wanted to go after the big story or the important story, or what people were really thinking, and I wanted to do the same thing."

Late in 1978, Yahn broke the news of an upcoming, massive reorganization at Sears. A Sears public relations employee leaked the venerable retailer's five-year plan, known informally within Sears as "The Yellow Book," to Crain's in three parts. The scoop helped establish credibility for the fledgling business magazine.

"If (Yahn) was going to go after a story, he was going to go and get it and no one was going to stop it," said Joe Cappel, who shortly afterward became Crain's Chicago Business' publisher. "He was a terrific writer and a terrific enterprise reporter."

"He was our Pied Piper. Anyone would follow him anywhere," said Sandra Pesmen, who worked with Yahn at the Daily News and Crain's. "He had more than charisma. When you were in his presence, you just had to laughingly follow him wherever he went."

Yahn got Crain's Chicago Business up and running, then stepped down as editor in November 1978 to become publisher of Collector Investor, a now-defunct publication that Crain Communications had acquired.

Yahn later left Chicago to take the helm at the Pittsburgh Business Times. He subsequently was business editor at the Philadelphia Daily News and then at the New York Daily News.

"He was a huge advocate of young reporters, and there were a number of reporters who really shined because of him giving them the opportunity," said Bob Condor, who worked for Yahn at the New York Daily News.

In the late 1980s, Yahn briefly was based in Maine, helping to publish a weekly magazine. In 1990 he returned to Chicago, rejoining Crain Communications as the editor of its magazine Business Marketing. He was Ad Age's executive editor in 1993 and then editor in 1994.

Yahn left Ad Age in late 1995. He moved to New York and joined Editor & Publisher in 1998 as its executive editor. After leaving Editor & Publisher in 2001, Yahn worked as a principal at the Dilenschneider Group public relations firm. In 2003 he became executive editor of MediaPost's Media magazine, where he worked for a time.

In recent years, Yahn had been a regular freelance contributor for Risk & Insurance magazine, writing cover articles on subjects such as art storage and insurance and acid mine drainage.

A marriage to Andrea Rock ended in divorce. In addition to his brother, Yahn is survived by two sons, Adam and Chad; a sister, Barbara; and his mother, Carolyn.
